Let Them Eat Crypto Peter Howson, 2023-10-20. An essential resource. Howson strikes not just at cryptocurrency but the frauds who promote blockchain technology as a solution to any social problem. David Gerard, author of *Attack of the 50 Foot Blockchain*. A merciless takedown of attempts to apply blockchain to the world's biggest problems. If you are thinking of using blockchain for good, read this first. Professor Villi Lehdonvirta, University of Oxford. The subject of immense hope, hype, and confusion, crypto has amassed countless headlines in recent years. With cryptocurrencies, NFTs, and metaverse markets crashing, the underlying blockchain technology is still promised to solve global development challenges and revolutionise every industry. But is the technology really a silver bullet? Peter Howson cuts through the jargon and bluster to tell an alarming story of how right-wing libertarian crypto entrepreneurs, often aided by charities, politicians, and philanthropists, seek out and exploit conditions of poverty, oppression, corruption, and conflict. Their goal: A new front of crypto colonial extractivism. *Let Them Eat Crypto* reveals the alarming truth far from banking the unbanked, saving the gorillas, or freeing people from oppressive governments, blockchain offers only false solutions: surveillance and hi-tech snake oil. Peter Howson is a technology writer, researcher, and Assistant Professor in International Development at Northumbria University. His work has appeared in Reuters, The Independent, The Conversation, Novara, Jacobin, and Coindesk. He investigates the green washing, aid washing, and crypto shenanigans that go on in Silicon Valley as well as the lesser-known tech hubs of the Global South.
