The book groups chapters based on the major foci of the core content: health care delivery and policy, clinical decision making, information science and systems, data management and analytics, leadership and managing teams, and professionalism. The chapters do not need to be read or taught in order, although the suggested order is consistent with how the editors have structured their curricula over the years. This includes physicians studying for board examination in clinical informatics as well as the American Medical Informatics Association (AMIA) health informatics certification.
