Academic Quality Rankings of American Colleges and Universities David S. Webster, 1986. *College Rankings* Luke Myers, Jonathan Robe, 2009. Today, college quality rankings in news magazines and guidebooks are a big business with tangible impacts on the operation of higher education institutions. The college rankings published annually by U.S. News and World Report are so influential that Don Hossler of Indiana University derisively claims that higher education is the victim of management by the magazine. How did academic quality rankings of colleges and universities become so powerful in higher education? A review of their historical development in the first section of this study may surprise many readers. While college professors and administrators alike largely decry rankings today, their origin lies in academia itself. Begun as esoteric studies by lone professors, college rankings' development into the most popularly accepted assessment of academic quality was fueled by the very institutions of higher education they now judge. While the purpose and design of academic quality rankings has evolved during the century since their creation, their history teaches one clear lesson: college rankings fill a strong consumer demand for information about institutional quality and, as such, are here to stay for the foreseeable future. Various approaches to college rankings have different benefits, and each is subject to legitimate criticism, all of which should be seriously considered in light of the powerful effects that a widely distributed ranking can have on institutions of higher education and the students seeking to enter them. Sections II and III will explore these aspects of college rankings respectively. In light of the historical lessons revealed in Section I, however, movements that seek to reform college rankings should be focused on producing better rankings rather than on trying to eliminate or ignore them. Section IV

will survey multiple new indicators of academic quality that many view as potential improvements over the indicators upon which current college rankings are based Contains 2 figures 6 tables and 116 endnotes **Princeton Review the Best 382 Colleges** Robert Franek,Kristen O'Toole,David Soto,Princeton Review (Firm),2017 A survey of life on the nation s campuses offers detailed profiles of the best colleges and rankings of colleges in sixty two different categories along with a wealth of information and applications tips *University and College Rankings* Source Wikipedia,2013-09 Please note that the content of this book primarily consists of articles available from Wikipedia or other free sources online Pages 40 Chapters Academic Ranking of World Universities Brand rankings of Japanese universities Center for Measuring University Performance Chinese university ranking Netbig Chinese university ranking Wu Shulian Chinese university ranking of billionaire alumni College and university rankings Criticism of college and university rankings 2007 United States Criticism of college and university rankings North America Faculty Scholarly Productivity Index Federation of Swiss Private Schools Going broke universities Disappearing universities High Impact Universities Inside the Ivory Tower Law school rankings in the United States List of colleges and universities which have signed the Presidents Letter List of Hospitality Management Schools in Switzerland List of United States graduate business school rankings Performance Ranking of Scientific Papers for World Universities QS World University Rankings Rankings of business schools in South Africa Rankings of universities in Brazil Rankings of universities in Canada Rankings of universities in Latin America Rankings of universities in South Africa Rankings of universities in the United Kingdom Rankings of universities in the United States Swiss quality label for further education institutions The Newman Guide to Choosing a Catholic College THE QS World University Rankings 2004 THE QS World University Rankings 2005 THE QS World University Rankings 2006 THE QS World University Rankings 2007 THE QS World University Rankings 2008 THE QS World University Rankings 2009 Times Higher Education World University Rankings Times Higher Education QS World University Rankings TrendTopper MediaBuzz College Guide Truly Strong Universities U S News World Report University and College Accountability Network Webometrics Ranking of World College Rankings Exposed Paul Boyer,2003 Argues that information about college ranking systems should be made available to students and parents **College Rankings** ,2002 College Rankings ,2002 **Washington Monthly's College Rankings** ,2007 **Best 331: College Rankings** , Princeton Review Inc presents a ranking of colleges in the United States for the current year The ranking takes into consideration the schools academics staff facilities as well as college life issues such as food and dorms Users can view the rankings by category *U.S. News: College Rankings* , Presents college rankings provided by U S News and World Report Contains a FAQ section Includes details about the methodology of the rankings the criteria and weights and the category definitions Offers rankings of the top national universities national liberal arts colleges specialty schools campus diversity and Midwestern northern and southern universities Provides a site search engine **Minimal Differentiation in the College Rankings Market** Audrey Tiew,2014 **World University Rankings** Kay Cheng
