*Microtimes*, 1995-08    **The Directory of U.S. Trademarks**, 1993    **Alien AI's Marine** Mina Carter, He's the lone human male in a sea of lethal alien warriors. He's either gifted or suicidal. Kidnapped by aliens, rescued and now on a secret base in a system he can't even pronounce. Major Jay Stephens has given up on a wing and a prayer; he's now on kicking butt and taking names. Especially when it comes to the alien AI who's risked everything, even her life, to protect him. The only problem: she's gone and gotten herself a body. Beautiful and delicate, she evokes reactions in him that should be illegal. The REAL problem: An AI in physical form is totally illegal and against just about every law in Latharian society. Which means lots of lethal aliens want to kill it and, by extension, his AI. And that's going to be a problem. Because Jay thinks no one knows he's in love with her and no little large green totally not green men are going to draw her up the best thing he ever had. She never wanted a body. Until she met her human marine. One of the most advanced AI's in the empire, Keris is used to being so much more than any biological could dream of. She never expected that saving a lone human would lead to her taking physical form. But a new form comes with a whole host of new problems. She's gone from being able to run a ship single-handed to struggling to coordinate her own two legs. And when Jay is around, her new brain quits functioning. All she can think about is the handsome human and what his lips would feel like on hers. But when the chips are down and Jay is taken from her, she'll show them that any woman scorned is a dangerous thing. AI or not.    [My Love AI](#) Deepali Bakshi, 2025-04-30 What happens when technology learns to love? her bladder She couldn't pee in her suit in the box Although the packing paper beneath her would absorb most of it the acrid smell would be a dead giveaway Inside the silence of her prison there was little to do except contemplate the terror of the circumstances she had been thrown into Occasionally she rotated her ankles briskly in an attempt to keep her blood flowing shifting an inch to the left then an inch to the right She never realized how painful it was to lie in one position for too long Her arms prickled and her legs were numb and painful all at the same time And the dusty packing material had her on the edge of a sneeze most of the time She had to fight the urge to turn over to keep her blood moving It was a natural instinct that was so persistent she felt she would scream at times She tried everything to keep her mind off her body's automatic response to being motionless for so long and finally settled into solving tough mathematical equations as the best way to keep her mind busy Eventually the steady thrum of the jet engines soothed her into a light sleep She woke to a sneeze that had been brewing for hours then froze in panic waiting for someone to notice But no No one could have noticed She was deep in the fuselage of the plane She was alone And still in the air She could tell by the steady throb of the engines But the sneeze was the least of her problems The pressure in her bladder had become unbearable You don't have to pee she told herself You don't have to pee She couldn't hold it any longer The pain was so intense If she could just Oh God she whispered You do have to pee You do She couldn't help it There was nothing else for her to do She relaxed the sphincter blocking her urethra and allowed the urine to flow The pressure in her bladder slowly ebbed away giving her instant relief But the warm wetness already felt horrible In just a matter of minutes her thighs would be damp and itchy from the urine settling into the cloth of her jumpsuit She could only hope it dried at least halfway before the plane touched down in Connecticut If it didn't she would be faced with an even bigger problem She stared at the top of the box for what seemed like an eternity trying to ignore the wetness beneath her derriere and between her thighs trying to ignore the faint smell of urine the numbness in her legs and feet the discomfort in her back the insanity that was slowly creeping in on her And then something happened that nearly caused her to scream in complete and utter madness Something crept up onto her cheek paused tickled its way up closer to her left eye paused again and sat there Eight legs It took every ounce of her will not to scream A tear squeezed out of her eye rolled down her cheekbone and fell into her hair She alternately held her breath and then let it out in short pants only to suck another breath in and hold it before expelling it in a short gust It was the only way she could keep from screaming keep herself from kicking and punching at the box lid and screaming for someone to let her out She felt like she had enough adrenaline in her body to tear the lid off herself and leap from the plane anything to get this thing off her face The spider sat there on her cheek not moving It had obviously made use of the holes she had bored into the wooden sides of the box And now it was enjoying the darkness of its newfound surroundings and driving her crazy with its soft legs its furry body Don't her brain silently screamed Don't think about it It's not there It's not there Angelique hated spiders with a vengeance And now one was sitting on her cheek motionless and comfortable except for the occasional slight movement of a

leg She was trapped in a box with very little oxygen forty five thousand feet above the earth with a spider on her face and she couldn t even raise a hand to swipe it off The box was so confining that her nose almost scraped the lid She was afraid to sweep her head to one side in hopes the thing would fall off afraid of being bitten If she were bitten her skin would react like human skin a welt would appear and everyone would know that she was no robot Jesus get a grip she told herself It s just a She couldn t say the word She decided to stop thinking about it It s not there It s not there Another sneeze was forming She wrinkled her nose in an attempt to stop it The movement disturbed the spider It bolted down her cheek Angelique clenched her eyes and mouth tightly shut as it ran down her chin across her neck and off somewhere where she couldn t feel its legs tickling her bare skin She was relieved to have the thing off her face but she knew it was still somewhere in the box with her And that was not a comforting thought Tears burned her eyes She was losing her resolve Panicking too much So afraid and stressed that she was now convinced she would be met in Connecticut by Roth himself and quickly dispatched just as he had planned all along High Tech Robots Artificial Intelligence Mystery Love Cyberpunk Corporation Strong Female Lead Sexy Action Adventure Scifi AI Artificial Intelligence     *Stop,Your Grace!* Jun Eleven, When she saw him for the first time on the night of the full moon he was the wild wolf and plundered her beauty at no allowance When she met him again he was the Duke of the United Kingdom From now on when I stand you cannot sit when I lie down you must sit on me and move yourself No revealing clothing no contact with any other male except me All of the rules restricted her freedom And at last she couldn t stand him any longer she shouted Stop Duke I ve had enough with this You want me to stop Sweetie if you stay with me you only can let me do not stop Damn it she s had the bad luck of her life to mess with the wolfish Duke This is Book 5 of Stop Your Grace 5 books     *Ai For Everyday Use: Maximizing Your Life with Top Virtual Assistants of 2025* AI Guru, 2025-02-08 Discover the Future of AI How Artificial Intelligence is Transforming Everyday Life Step into the world of artificial intelligence with this comprehensive guide that explores the incredible capabilities of AI assistants and their impact on our daily lives Whether you re a tech enthusiast a professional looking to boost productivity or simply curious about the future of technology this book is packed with valuable insights practical exercises and real life examples to help you understand and harness the power of AI What s Inside In Depth Analysis Understand the key features and applications of popular AI assistants like Google Assistant Amazon Alexa Apple Siri Microsoft Cortana and more Practical Exercises Engage with hands on exercises designed to help you apply AI technology to your personal and professional life Multiple Choice Quizzes Test your knowledge and reinforce learning with quizzes and answers at the end of each chapter Real Life Stories Learn from inspiring real life stories that showcase how AI is transforming lives and industries Expert Tips Gain valuable tips and best practices for integrating AI assistants into your daily routine Emerging Trends Stay ahead of the curve with insights into the future of AI technology and its potential impact on various industries Ethical Considerations Explore the ethical implications and privacy concerns associated with AI ensuring you make informed decisions Packed with Value Quizzes with Answers
