**Partial Identification in Econometrics and Related Topics** Nguyen Ngoc Thach, Nguyen Duc Trung, Doan Thanh Ha, Vladik Kreinovich, 2024-07-31 This book covers data processing techniques with economic and financial application being the unifying theme To make proper investments in economy the authors need to have a good understanding of the future trends how will demand change how will prices change etc In general in science the usual way to make predictions is to identify a model that best fits the current dynamics and to use this model to predict the future behavior In many practical situations especially in economics our past experiences are limited As a result the authors can only achieve a partial identification It is therefore important to be able to make predictions based on such partially identified models which is the main focus of this book This book emphasizes partial identification techniques but it also describes and uses other econometric techniques ranging from more traditional statistical techniques to more innovative ones such as game theoretic approach interval techniques and machine learning Applications range from general analysis of GDP growth stock market and consumer prices to analysis of specific sectors of economics credit and banking energy health labor tourism international trade to specific issues affecting economy such as ecology national culture government regulations and the existence of shadow economy This book shows what has been achieved but even more important are remaining open problems The authors hope that this book will inspire practitioners to learn how to apply state of the art techniques especially techniques of optimal transport statistics to economic and financial problems and inspire researchers to further improve the existing techniques and to come up with new techniques for studying economic and financial phenomena The authors want to thank all the authors for their contributions and all anonymous referees for their thorough analysis and helpful comments The publication of this book and organization of the conference at which these papers were presented was supported by the Ho Chi Minh University of Banking HUB Vietnam and by the Vingroup Innovation Foundation VINIF The

authors thank the leadership and staff of HUB and VINIF for providing crucial support      Popular Webster Dictionary,  
Self-pronouncing Noah Webster, 1928      **Chinese Platforms** Jian Lin, Wilfred Yang Wang, Ping Sun, 2025-12-10 The rise of  
 the Chinese internet has reconfigured digital culture around the world From social media platforms such as WeChat and  
 Douyin to utility platforms Didi and Eleme the Chinese platform economy has shown a remarkable capacity to innovate and  
 grow incurring constraints as well as receiving protection from the Chinese state This is the first textbook to centre Chinese  
 platforms in the transformation of the global internet Offering an overview of the history governance and social political  
 implications the book shows how Chinese platforms are situated within the domestic political economy of China and the  
 external geopolitics and cross border mobilities of capital technology and populations Topics covered include policy and  
 governance social media entertainment e commerce digital labour and the Chinese diaspora Comparing and contrasting the  
 Chinese platform ecology with its global counterpart the book argues that while Chinese platforms exhibit more effective  
 economic and technological innovation and have strong cultural cachet they are subject to a far greater degree of state  
 oversight including facilitation as well as correction and censorship Chinese Platforms is a required reading for students of  
 Media and Communication Studies and China Studies as well as those interested in the rise of digital China and the  
 implications for the global platform society      **The New Teacher's and Pupils' Cyclopaedia** ,1909      International
