*Reforming Reading, Writing, and Mathematics* S.G. Grant, 2012-12-06 In this book S G Grant reports his study of how four Michigan elementary school teachers manage a range of reforms such as new tests textbooks and curriculum frameworks in three different school subjects reading writing and mathematics Two significant findings emerge from his comparison of these responses teachers responses vary across classrooms even when they teach in the same school building and also across the reforms a teacher might embrace reforms in one subject area but ignore proposed changes in another This study of teachers responses to reading writing and mathematics reform and the prospects for systemic reform is part of a growing trend to look at the intersection of curriculum policy and teachers classroom practice It is unique in the way the author looks at teachers responses to multiple subject matter reforms uses those responses as part of an analysis of the recent move toward systemic reform and employs empirical findings as a means of examining the current movement toward systemic reform Reforming Reading Writing and Mathematics is important reading for researchers practitioners and graduate students of educational policy teaching and learning in reading writing and mathematics and elementary education and for policy analysts in universities foundations and government
