Source Joseph Jaworski,2012-02-06 As he did in his classic Synchronicity Joseph Jaworski once again takes us on a mind expanding journey this time to the very heart of creativity and deep knowing Institutions of all sorts are facing profound change today with complexity increasing at a speed and intensity we ve never experienced before Jaworski came to realize that traditional analytical leadership approaches are inadequate for dealing creatively with this complexity To effectively face these challenges leaders need to access the Source from which truly profound innovation flows Many people including Jaworski himself have experienced a connection with this Source often when called upon to respond in times of crisis moments of extreme spontaneity and intuitive insight Actions simply flow through them seemingly without any sort of conscious intervention But these experiences are chance occurrences ordinarily we don t know how to access the Source and we even have a blind spot as to its very existence In an extraordinarily wide ranging intellectual odyssey Jaworski relates his fascinating experiences with quantum physicists cognitive scientists indigenous leaders and spiritual thinkers all focused on getting to the heart of the Source Ultimately he develops four guiding principles that encompass the nature of the Source and what we need to do to stay in dynamic dialogue with it Using the combination of narrative and reflection that made Synchronicity so compelling Jaworski has written a book that illuminates the essential nature not only of visionary leadership but also of relationships consciousness and ultimately reality itself **Source** Joseph Jaworski,2012-02-06 Picking up where he left off in his bestselling book Synchronicity over 150 000 copies sold Joseph Jaworski tells the story his and his colleagues discovery of the ultimate Source of visionary leadership transformation and breakthrough innovation **Leadership in Unknown Waters** Lisa Withrow,2020-10-29 Leadership in Unknown Waters invites organizational leaders and their teams to engage powerful questions amidst ambiguity and uncertainty as they move from the way things were to an emerging future This liminality a threshold in space and time allowing for transition from something old to something new is fraught with both difficulty and opportunity Leaders teams and individuals who navigate this space skillfully will land in surprisingly dynamic places encountering stories metaphors and inspiration for traversing the threshold not only competently but with curiosity and confidence In this way futures are created that are not possible with fear based planning or quick fixes Withrow s method intersects the human imagination through a visual living metaphor water with attention to space liminality or transitional space and focus on role leadership development for powerful engagement with what organizational learning theorists call the emerging future Here the theoretical meets the practical and research informs the how to and why Diving into unknown waters with tools and wisdom can create a better future for all who face change whether within corporations not for profit organizations faith communities family systems or interpersonal relationships **Living in Flow Sky** Nelson-Isaacs,2019-02-19 Harness the principles of synchronicity and flow to live better work smarter and find purpose in your life When we align with circumstance circumstance aligns with us Using a cutting edge scientific theory of synchronicity

Sky Nelson Isaacs presents a model for living in the flow a state of optimal functioning creative thinking and seemingly effortless productivity Nelson Isaacs explains how our choices create meaning translating current and original ideas from theoretical physics and quantum mechanics into accessible actionable steps that we can all take to live lives in better alignment with who we are and who we want to be By turns encouraging and empowering Living in Flow helps us develop an informed relationship to meaning making and purposefulness in our lives From this we can align ourselves more effectively within our personal professional and community relationships to live more in flow

Proleptic Leadership on the Commons Randal Joy Thompson,2020-10-22 Will capitalism give way to a commons centric society as many scholars and activists predict Viewing the commons as a vehicle for a new world order Randal Joy Thompson proposes proleptic leadership which envisions how leaders will continue to be essential as the custodians of responsible agency and conscious choice

Shakti Leadership Nilima Bhat,Raj Sisodia,2016-05-02 Unlocking the Source for True Leadership Too many people men and women alike have bought into a notion of leadership that exclusively emphasizes traditionally masculine qualities hierarchical militaristic win at all costs The result has been corruption environmental degradation social breakdown stress depression and a host of other serious problems Nilima Bhat and Raj Sisodia show us a more balanced way an archetype of leadership that is generative cooperative creative inclusive and empathetic While these are traditionally regarded as feminine qualities we all have them In the Indian yogic tradition they re symbolized by Shakti the source that powers all life Through exercises and inspirational examples Bhat and Sisodia show how to access this infinite energy and lead with your whole self Male or female leaders who understand and practice Shakti Leadership act from a consciousness of life giving caring creativity and sustainability to achieve self mastery internally and be of selfless service to the world
