training and petrochemical plant operation **The Power of Intuition** Gary Klein, 2007-12-18 At times in our careers we've all been aware of a gut feeling guiding our decisions Too often we dismiss these feelings as hunches and therefore untrustworthy But renowned researcher Gary Klein reveals that in fact 90 percent of the critical decisions we make is based on our intuition In his new book *THE POWER OF INTUITION* Klein shows that intuition far from being an innate sixth sense is a learnable and essential skill Based on interviews with senior executives who make important judgments swiftly as well as firefighters emergency medical staff soldiers and others who often face decisions with immediate life and death implications Klein demonstrates that the expertise to recognize patterns and other cues that enable us intuitively to make the right decisions is a natural extension of experience Through a three tiered process called the *Exceleration Program* Klein provides readers with the tools they need to build the intuitive skills that will help them make tough choices spot potential problems manage uncertainty and size up situations quickly Klein also shows how to communicate such decisions more effectively coach others in the art of intuition and recognize and defend against an overdependence on information technology The first book to demystify the role of intuition in decision making *THE POWER OF INTUITION* is essential reading for those who wish to develop their intuition skills wherever they are in the organizational hierarchy [Sources of Power, 20th Anniversary Edition](#) Gary A.
