to reach a highly respected status in the world They do not share many similarities and this makes it interesting to identify their respective challenges and find out their strengths and weaknesses Most countries participated in or were shaped by World War II India however did not face as severe challenges as Germany did after the war This global conflict did not mark a key turning point in India s history India s turning point in economic history came when Western countries realized the potential and benefits of its cheap labour force in the late twentieth century Up to that point India had largely been an agricultural based country and was not prepared for such a rapid economic growth and development Germany on the other hand had to deal with severe damages after World War II and this is said to be one of the major turning points in this country s history marking it until today Thanks to both financial aid by its partners e g Marshall Plan and the implementation of new immigration laws in the 1960s Germany regained the trust of its partners and is now known to be the largest economy in Europe with a chancellor who is said to be the second most influencing person in the world The momentary financial crisis within Europe and the Western world as well as the need for the expansion of mostly IT related companies into India are interesting aspects which will be discussed in the framework of this essay
