Soul Fire Sandile Dikeni, 2002 One of the most authentic voices of this land is how Antjie Krog has described Sandile Dikeni Since 1992 Dikeni has in the Cape Times newspaper as well as various magazines attempted to change the way in which South Africa sees itself His progressive perspective on what it is to be human in South Africa has underpinned all his reflections on the kind of society he yearns for whether he is confronting racism in its many guises commenting on Hansie or the National Symphony Orchestra or sharing personal experiences Soul Fire brings together an entertaining and thought provoking collection of Dikeni s prose The essays run close to the heartbeat of South Africa but also travel beyond to Brazil Norway Holland Germany and India

**Black Climates** Selina Nwulu, 2025-08-28 To want to save the planet a person has to have a sense of belonging in it What would a saved planet look like for a Black collective This book is validating and monumental Courttia Newland Sensitive powerful and necessary Joycelyn Longdon Globally Black people are among the most affected by the climate crisis despite contributing very little to it For a long time the crisis was portrayed as yet another injustice for Black people to care about on top of the day to day oppression they face In Black Climates Selina Nwulu reframes the crisis to encompass our disconnection from each other and the world around us She argues that the root of climate change lies in historical colonial violence and ongoing exploitation making it inherently racist Nwulu former Young People s Laureate for London uses her poetic and skilful voice to directly address Black British readers who have been previously ignored in mainstream environmental conversations She includes interviews with a wide range of creatives and campaigners to explore a variety of subjects including air pollution prison ecology disability justice migration food nature community care and radical imagination This is an essential and empowering read for anyone who wants to fully understand the connections between Blackness and the climate crisis providing the tools to envisage more equitable futures
