Confucian Tradition and Global Education Wm. Theodore de Bary, 2007-02-15 Professor de Bary argues in these three lectures that China's Confucian tradition is still relevant in the democratic and pluralistic world order of today First Confucian tradition values free discourse and the pursuit of knowledge Second He goes into further details of the content and method by which the Chinese classics can be restored to a place in a modern humanities curriculum relevant to a global horizon Third de Bary envisions a global curriculum of east books through translation Throughout these lectures one can see de Bary's passion as a humanist and an educator and one who has had tremendous experience in conceiving and editing the Introduction to Oriental Civilizations Series which have had so much impact upon the teachings of Asia in America's colleges Two additional chapters by Professors Tze wan Kwan and Cheung Chan fai on the issues of Tang Chun I's concept of general education and language media in education respectively are added

Korea Michael J. Seth, 2020-01-23 Having spent centuries in the shadows of its neighbours China and Japan Korea is now the object of considerable interest for radically different reasons the South as an economic success story and for its vibrant popular culture the North as the home to one of the world's most repressive regimes at once both bizarre and menacing This Very Short Introduction explores the history culture and society

of a deeply divided region Michael Seth considers what it means to be Korean and analyses how the various peoples of the Korean peninsula became one of the world's most homogeneous nations before exploring how this nation evolved in a single lifetime into today's sharply contrasting societies He also discusses how Korea fits into the larger narrative of both East Asian and world history economically politically and socially ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable Salvation for the Sinned-Against Kevin P. Considine, 2015-01-22

The problem of the barbarous excess of human suffering is becoming the main question of global Christianity In an intercultural globalizing world how do we envision the wounds of sin and God's saving work of healing liberation and redemption Salvation for the Sinned Against attempts to address these questions and to suggest a renewed understanding of God's salvation for the victims of sin within the intercultural and globalizing context of the twenty first century It offers a thorough treatment of Edward Schillebeeckx intercultural hermeneutics and the Korean concept of han and brings them into dialogue with the Pastoral Constitution on the Church in the Modern World *Gaudium et spes* This book is the first in depth study of han from a Roman Catholic perspective and the first to attempt to integrate han into Roman Catholic theology in order to begin to envision salvation for the sinned against creature Its insights into the experience and message of salvation for the sinned against as well as the perpetrators speak not only to the ecclesial sphere but to the public sphere and beyond Although written from a Western North American social location this is a book that can be useful far beyond this context

The Emotions of Justice Jisoo M. Kim, 2016-01-01 The Choson state 1392-1910 is typically portrayed as a rigid society because of its hereditary status system slavery and Confucian gender norms However The Emotions of Justice reveals a surprisingly complex picture of a judicial system that operated in a contradictory fashion by discriminating against subjects while simultaneously minimizing such discrimination Jisoo Kim contends that the state's recognition of won or the sense of being wronged permitted subjects of different genders or statuses to interact in the legal realm and in doing so illuminates the intersection of law emotions and gender in premodern Korea **CURRENT CONTENTS January 7, 2002 Volume 24**

Larsen, 2008 Relations between the Choson and Qing states are often cited as the prime example of the operation of the eoetraditional e Chinese eoetribute system e In contrast this work contends that the motivations tactics and successes and failures of the late Qing Empire in Choson Korea mirrored those of other nineteenth century imperialists Between 1850 and 1910 the Qing attempted to defend its informal empire in Korea by intervening directly not only to preserve its geopolitical position but also to promote its

commercial interests And it utilized the technology of empire treaties international law the telegraph steamships and gunboats Although the transformation of Qing Choson diplomacy was based on modern imperialism this work argues that it is more accurate to describe the dramatic shift in relations in terms of flexible adaptation by one of the world's major empires in response to new challenges Moreover the new modes of Qing imperialism were a hybrid of East Asian and Western mechanisms and institutions Through these means the Qing Empire played a fundamental role in Korea's integration into regional and global political and economic systems **Korea Observer** ,2007
