### **South Africa Limits To Change The Political Economy Of Transition:**

**South Africa** Hein Marais,1998 This book explains the reasons why the ANC now that it is in power has resisted calls for more radical options and instead pursued quite conservative economic management policies *South Africa Pushed to the Limit* Hein Marais,2013-07-04 Since 1994 the democratic government in South Africa has worked hard at improving the lives of the black majority yet close to half the population lives in poverty jobs are scarce and the country is more unequal than ever For millions the colour of people s skin still decides their destiny In his wide ranging incisive and provocative analysis Hein Marais shows that although the legacies of apartheid and colonialism weigh heavy many of the strategic choices made since the early 1990s have compounded those handicaps Marais explains why those choices were made where they went awry and why South Africa s vaunted formations of the left old and new have failed to prevent or alter them From the real reasons behind President Jacob Zuma s rise and the purging of his predecessor Thabo Mbeki to a devastating critique of the country s continuing AIDS crisis its economic path and its approach to the rights and entitlements of citizens *South Africa Pushed to the Limit* presents a riveting benchmark analysis of the incomplete journey beyond apartheid

**South Africa : Limits to Change** ,1998 **The Political Economy of Global Warming** Del Weston,2014-04-11 Humanity is facing an unprecedented global catastrophe as a result of global warming This book examines the reasons why international agencies together with national governments are seemingly unable to provide real and binding solutions to the problems The reasons presented relate to the existing dominant global economic structure of capitalism as well as the fact that global warming is too often seen as an isolated problem rather than one of a suite of exceptional converging and accelerating crises arising from the global capitalist political economy This book adopts a political economy framework to address these issues It accepts the science of global warming but challenges the predominant politics and economics of global warming To illustrate the key issues involved the book draws on South Africa building on Samir Amin s thesis that the country represents a microcosm of the global political economy By taking a political economy approach the book provides a clear explanation of the deep and pervasive problem of the denial which fails to acknowledge global warming as a systemic rather than a market problem The book should be of interest to students and scholars researching climate change environmental politics environmental and ecological economics development studies and political economics

**Neoliberalism and the State of Belonging in South Africa** Derick A. Becker,2020-02-17 This book explains the making of the South African state and thereby contributes to the development theory by analyzing the concept of the embedded neoliberal state The author offers a theoretical exploration of state formation as an inherently interconnected international and domestic social process as applied to the history and development of South Africa A genuine social science that eschews disciplinary boundaries this will appeal to a wide audience of scholars in the fields of political development political science African and development studies

**Smart Transitions in City Regionalism** Tassilo Herrschel,Yonn Dierwechter,2018-03-22 In recent years smartness has

risen as a buzzword to characterize novel urban policy and development patterns As a result of this debates around what smart actually means both theoretically and empirically have emerged within the interdisciplinary arenas of urban and regional studies This book explores the changes in discourse rationality and selected responses of smartness through the theme of transition The concept of transition provides the broader context and points of reference for adopting smartness in reconciling competing interests and agendas in city regional governance Using case studies from around the world including North America Europe and South Africa the authors link external regime transition in societal values and goals with internal moves towards smartness While reflecting the growing integration of overarching themes and analytical concerns this volume further develops work on smartness smart growth transition city regionalism governance and sustainability Smart Transitions in City Regionalism explores how smart cities and city regions interact with conventional state structures It will be of great interest to postgraduates and advanced undergraduates across urban studies geography sustainability studies and political science

Social Policy in Post-Apartheid South Africa Ndangwa Noyoo,2019-11-01 This book critically examines the current social policy in post apartheid South Africa and proposes an alternative social policy agenda to create a new development pathway for the country Taking social policy as a vehicle that will facilitate the creation of a new society altogether namely the Good Society the author argues for the adoption of policy that will socially re engineer South Africa The author shows how the policy tools and development interventions which were undertaken by the post apartheid state in driving South Africa s transformation agenda failed to emancipate many individuals families and communities from the cycle of intergenerational poverty and underdevelopment He contends that social policy interventions that foster the social re engineering of South African society must take place to untangle the inherited colonial apartheid social order This book includes comparative analyses on the Global South and Global North to present the ways in which countries such as post Second World War Great Britain and Sweden and post independence Zambia of the 1960s and 1970s were able to use social policy to create new societies altogether or places similar to the Good Society The conceptual and methodological issues that form the basis for this book reside in public policy making and the public good and will be of interest to scholars of social policy social development and South African society

*Reader's Guide to the Social Sciences* Jonathan Michie,2014-02-03 This 2 volume work includes approximately 1 200 entries in A Z order critically reviewing the literature on specific topics from abortion to world systems theory In addition nine major entries cover each of the major disciplines political economy management and business human geography politics sociology law psychology organizational behavior and the history and development of the social sciences in a broader sense

**The ^AOxford Encyclopedia of Economic History** Joel Mokyr,2003-10-16 What were the economic roots of modern industrialism Were labor unions ever effective in raising workers living standards Did high levels of taxation in the past normally lead to economic decline These and similar questions profoundly inform a wide range of intertwined social issues whose complexity scope and depth become fully evident in the

Encyclopedia Due to the interdisciplinary nature of the field the Encyclopedia is divided not only by chronological and geographic boundaries but also by related subfields such as agricultural history demographic history business history and the histories of technology migration and transportation The articles all written and signed by international contributors include scholars from Europe Latin America Africa and Asia Covering economic history in all areas of the world and segments of economies from prehistoric times to the present The Oxford Encyclopedia of Economic History is the ideal resource for students economists and general readers offering a unique glimpse into this integral part of world history

*Voices of the Transition* Edgar A. Pieterse, Frank Meintjies, 2004

*A History of Inequality in South Africa, 1652-2002* Samie Terreblanche, Solomon Johannes Terreblanche, 2002 This work is an analysis of economic relations in South Africa It analyses the work of numerous historians on inequality and exploitation in South Africa around a single theme the systematic and progressive economic exploitation of Indigenous people by settler groups Second the author argues that despite South Africa's transition to democracy its society is as unequal if not more so than before

**The Role of Political Violence in South Africa's Democratisation** Ran Greenstein, 2003

**Thabo Mbeki's World** Sean Jacobs, Richard Calland, 2002 This book explores Thabo Mbeki from an ideological perspective Is there a central strand of thinking that informs his politics and his policy making It is of great significance how Mbeki builds fortifies and interacts with his core base and his most important constituencies especially in and around the ANC led ruling alliance It argues that it is important to understand Mbeki in order to grasp how the South African government operates post 1999

**In Full Flight** Walter Carlsnaes, Philip Nel, Institute for Global Dialogue, 2006 Foreign policy is widely regarded as one of the post apartheid government's major areas of achievement yet remains one of the most challenging In this volume leading scholars provide critical assessments of the conduct of South African foreign policy since 1994 against the background of six principles articulated by Nelson Mandela in a celebrated article published in the journal *Foreign Affairs* in 1993 While South African foreign policy has become wide ranging and complex these reflective contributions demonstrate a remarkable adherence to these principles Aimed at stimulating thinking among policy makers analysts and students this volume will rank as one of the most authoritative analyses and one of the most complete intellectual records of South Africa's foreign policy during the crucial first decade following its transition to democracy

**The Making of South Africa** Aran S. MacKinnon, 2004 For upper level undergraduate courses in African and South African history and political science or African sections of Global Studies courses For graduate courses on South Africa or African history with a South African component This new history of South Africa provides a significant and unique addition to existing texts by emphasizing the African voice as well as recent developments in the newly democratic South Africa This text incorporates important new perspectives on South African geography and the spatial dimensions of segregation and apartheid environmental studies and the dynamic literature on identities and ethnicity Drawing upon the most important developments in recent South African historiography the text

highlights how Europeans and Africans shaped the environment politics and the economy to develop a complex multi racial nation Overall it provides students with a detailed understanding of all the forces that have shaped South Africa to date and is more up to date than other texts      **Making Mistakes, Righting Wrongs** Duma Gqubule,2006 Making mistakes righting wrongs insights into black economic empowerment is one of the first comprehensive evaluations of the impact of South Africa s evolving Black economic empowerment BEE policies and programmes during the first decade of democracy

Balancing Democracy Roland Axtmann,2001 Addressing one of the classical concerns of comparative politics the formation and maintenance of stable democracies Balancing Democracy will be of interest to students taking courses in comparative politics and democratization as well as to general reader concerned with democratic developments in the twenty first century Written by a specially commissioned group of international experts this volume provides an attempt at detecting socio political trends highlighting chances for further democratization and dangers to democratic stability      *The Journal of Australian Political Economy* ,2002      Southern Africa Political & Economic Monthly ,2000      *Democracy & Development* ,2003
