to quote the company All the ways you love music All in one place In non marketing lingo Apple Music is built around two
major components iCloud Music Library which combines your purchased music library and ripped tracks in one place and the
Apple Music streaming catalog where you can find more than 10 million tracks from artists around the world These two parts
live side by side in the Music app You can keep each separate by only streaming the Apple Music catalog or you can add
streaming songs to your offline Music library where they can be mixed into playlists offline or publicly shareable or shuffled
amongst the rest of your music Apple Music also offers a massive recommendation and browsing area for its streaming
catalog As you listen to songs in the Music app Apple collects data about your tastes and drops daily custom curated playlists
in the app for you to listen to along with a weekly algorithmic New Music mix that suggests songs and artists you might like
You can also poke around the entire streaming catalog s array of new music curated playlists music videos and more Table of
