He also presents indispensable insights on psychology and trader development based on his work with hundreds of traders on a major commodity exchange and an elite prop firm's trading desk. Then in Shock Markets Robert I. Webb and Alexander Webb show you exactly how to transform crises into profits. They offer meticulous breakdowns of recent crises revealing how these events impacted both individual stocks and overall markets and helping you create detailed game plans for profiting from future shocks. They answer crucial questions like What moves stock prices? What moves the overall market? How can you profit from catalysts that precipitate sudden sharp stock price movements? From regulatory decisions to macroeconomic reports seemingly remote factors can have a huge sudden impact on stocks.
