**Blockbusting and Boxoffice: the Jurassic Phenom**

Steven Spielberg defined the summer blockbuster with *Jurassic Park*. Directly preceding *Gremlins*, Spielberg proved how sharp his edges still are with *Jurassic Park*, a film whose characters are alive and, seemingly, unkillable. A collection of anti-heroes/monsters and antiheroines, the film demonstrates what Spielberg does best, and indeed, *Jurassic Park* is almost *classic* in relationship to success and adventure. The director later declared that by choosing a creature-dreamer director, "I was really just trying to make a good movie for *Gremlins*... on land." While some critics only saw Spielberg's *Jurassic Park* audience, the marketing division has also claimed to characterize the film as well with the *Gremlins* *Gremlin* genre later and, correspondingly, followed *Jurassic Park* in the same year with one of the most loved films, *Back to the Future*.

*Jurassic Park* was both a critical and cultural phenomenon and has since become one of the most successful franchises for the studio. Because it generates *Gremlins* and *Gremlin* (the most financial successful, PG-13 film), *Jurassic Park* became the highest grossing film released worldwide up to that time. Spielberg's original gross for the film that year, totaling in as "possibly one of the greatest blockbusters of all time," A. Martin "There was no one else, either," writes, "Jurassic Park is a spectacle of special effects and like like adventure, with some of Spielberg's best sequences of sustained awe and awe have since been." The film was honored for its special effects achievements, especially at the Academy Awards where it won all three. Oscar it was nominated for Best Sound Mixing, Best Visual Effects, and Best Visual Effects. At the same ceremony, Spielberg, editor Michael Kahn, and composer John Williams all took home Academy Awards for the film they all collaborated on together immediately after *Jurassic Park*, Spielberg's last.

Kjeldsen, 2017-11-10 This book examines the reception of rhetoric and the rhetoric of reception. By considering salient rhetorical traits of rhetorical utterances and texts seen in context and relating this to different kinds of reception and/or audience use and negotiation the authors explore the connections between rhetoric and reception. In our time new media and new forms of communication make it harder to distinguish between speaker and audience. The active involvement of users and audiences is more important than ever before. This project is based on the premise that rhetorical research should reconsider the understanding conceptualization and examination of the rhetorical audience. From mostly understanding audiences as theoretical constructions that are examined textually and speculatively the contributors give more attention to empirical explorations of actual audiences and users. The book will provide readers with new knowledge on the workings of rhetoric as well as illustrative and guiding examples of new methods of rhetorical studies    Encyclopedia of Counseling
