

# Basic Industrial Power Electricity (IMC-1)

## INDUSTRIAL MAINTENANCE

Basic Industrial Power Electricity is a stand-alone benchtop training station providing students with fundamental electrical concepts essential for success in career-based training. Topics include lockout/tagout and safety, measuring voltage and three-phase power.

Basic Industrial Power Electricity presents the working principles of electricity the most effective way: using the same industrial-strength components used in industry. Students learn the principles of industrial power electricity, from Ohm's Law theory to hands-on activities building circuits and working with inductors, motors and generators.

The included Student Study Guide lays a solid foundation in the theory and concepts involved in industrial power as well as guiding students step by step through hands-on lab activities with the trainer equipment.

## GREYSTONE

The Greystone line of training systems offers an all-in-one solution for your mechatronics and industrial maintenance lab! Durable lab equipment and rigorous courseware combine to deliver all you need for your secondary or post-secondary career and technology education program.

These robust, versatile training stations allow for in-depth training in small spaces. From desktop trainers to mobile training stations, Greystone stations feature industrial-grade components incorporated into rugged aluminum frame-work. All trainers include competency-based curriculum with emphasis on operating theory, installation, maintenance, and troubleshooting.

Give your trainees and students the advantage of working with the same equipment they will encounter in industry. Choose Greystone training systems!
