

PRIORITIES

- list your assignments by due date, time needed, or any other topic
- Start with your #1 assignment; if you get tired, work on the other ones as a productive study break!

STUDYING: HOW-TOs, ADVICE, & TIPS

in a typical hour of studying...

- actual productive studying
- not studying but still productive
- study breaks (stretch, nap, etc)

What Worked for me

If there's a big assignment/exam, get started early! Don't wait until last minute. If you have questions, or don't understand something, email/ask your professor! It'll show that you care about the class and leave a good impression. Don't worry if you don't get something the first time you try it — some of my best essays took 5 drafts to get right!

Don't forget to reward yourself for doing things well!

math help: Wolfram Alpha
in general: Khan Academy, crash course (youtube), Sparknotes, etc.
you can always ask other people for help, too!

EXTRA RESOURCES!

Try to think of mistakes not as failures, but as chances to learn!

HOW TO CRAM

One word: don't. cramming will stress you out and doesn't help in the long run. Instead, start studying earlier

studying timeline

day 1: you learn what's going to be in the test

day 2: review your notes if you want, make some study guides!

day 3: look over notes!

2 days before test: look over your notes, textbook, and any other resources you can find

the night before: RELAX. read over your study guide before you go to sleep (try for 8 hrs!)

TEST DAY: you will do great! trust in your knowledge, and believe in yourself! you totally got this!!
