proliferation of gun violence and a contentious political climate have led some officers to refrain from undertaking proactive types of policing In this context reform of the police education system is urgent This book examines police training at all levels of government local regional state and federal In addition citizen participation programs including the role of the media and programs for furthering law related education LRE are highlighted The proposed police education model recognizes that ordinary members of the American public need to contribute to the provision of basic police education for it is they who must both support and be served by their police The focus is on teaching a guardian style of policing at the local level Police education would combine higher education necessary practical proficiencies and intensive field experiences through a gradual level of greater responsibility likely extending over a 2 plus year period for trainees with less than a year of previous college credits This book will be of interest to a wide range of audiences such as law enforcement professionals and trainers including those in executive development programs in police departments community leaders scholars and policy experts who specialize in policing concerned citizens and students of criminal justice especially those interested in police organization and management criminal justice policy and the historical development of police **Bonding Thomas**

Louis Ampeliotis,2006-07 Throughout this book author Thomas Ampeliotis provides insight written in the first person Ampeliotis talks primarily from his experience through eleven years of Law Enforcement Security experience Security Management for an International Company Human Resources and through his educational background that includes two master s degrees and work towards an Ed D in Organizational Leadership A good security professional is always thinking of what could happen and how to stop it from happening That is one reason I wrote this book I wanted to help security human resource personnel by giving them tools and forethought to prepare against the unexpected If there is not a designated security professional in an organization the task of security is always given to the human resource or safety department So it only makes sense that human resources should prepare against security issues and have necessary tools **Police Officer**
