**Impact of New Media in Tourism** Dinis, Maria Gorete, Bonixe, Luís, Lamy, Sónia, Breda, Zélia, 2021-02-19 Tourism consumers are increasingly demanding and seek to base their travel decision making process on relevant and credible tourism information. In recent years user generated content on social media, the opinion of travel bloggers and entertainment programs in the media have influenced the public's travel purchasing behavior and acted as a driving force for the development of tourism products such as film tourism. It also has played a role in the evolution and development of marketing, giving rise to new applications as in the case of digital and influence marketing. On the other hand, tourism organizations and destination management organizations face major challenges in communicating the attributes of a tourism product since this cannot be experienced before consumption. Thus, they need to know how and in which means or platforms of communication they can inform potential consumers. Impact of New Media in Tourism provides theoretical and practical contributions in tourism and communication, including current research on the influence of new media and the active role of consumers in tourism. With a focus on decision making and increasing the visibility of products and destinations, the book provides support for tourism agencies and organizations around the world. Covering themes that include digital marketing, social media and online branding, this book is essential for professionals, academicians, researchers, and students working or studying in the field of tourism and hospitality management, marketing, advertising, and media and communications. They expect all the brands to connect visually which are giving rise to newer challenges for the companies to implement new marketing techniques. It is an amazing way for the brands to communicate to their customers in a natural and an inconspicuous way. Instagram has been adopted by most of the brands so that they can cover all the bases on prevalent social media but have been unable to completely utilize the platform as an effective marketing channel. More than 400 million eyes are on this social site but most of them have been unable to get their messages across; it seems as the messages are being lost in the burst of content. Instagram moves at a faster pace in comparison to the other social sites and the brands seem to have problems in marketing using a visual medium and creating cost effective ways to procure good imagery at this pace.
