**Backtrack Forward** S. Loy, 2008-03 Tricia Warren fresh out of an overseas education enters the real world beset with the unfinished business of her forebears Her deceased father may have murdered his second wife and his estate is now in a rocky state of mismanagement Her mother's death also left the possibility that there is a family member that Tricia never knew Fearing for her financial and personal safety Tricia hires detectives to sort out these lingering mysteries and as they investigate it's clear that she faces a situation far direr than she had imagined Her trust fund could be lost to various persons with eyes on her father's estate and claims on gambling debts he left behind Her two step brothers may be players in a drug ring and other shady activities with designs of their own for the family fortune And the circumstances of the second wife's death are disturbingly unclear What had started out as a basic probate case has escalated into something deeply complicated and menacing even as Tricia strives to hold onto a happy family life Backtrack Forward is a mystery of family intrigue and dogged detective work in which the stakes are high the clues elusive the motives murky and the outcome anything but obvious

**The Antonio II Badile Album of Drawings: The Origins of Collecting Drawings in Early Modern Northern Italy** Evelyn Karet, 2017-07-05 Evelyn Karet's in-depth study of the Antonio II Badile Album the earliest known example of an art collection pasted onto the pages of a book is both focused and broad in its appeal to those interested in the early modern era The provenance of the album is traced from its assemblage to the seventeenth century collection of Conte Lodovico Moscardo to its dismantling by the dealer Francis Matthiesen in the 1950s establishing that the volume conserved in the Frits Lugt Collection is not an original but a replica produced by Matthiesen Although Antonio II must be celebrated as the collector of the drawings new paleographic analysis has identified the actual compiler of the album after Antonio's death providing a terminus post quem in the late 1530s or early 1540s Karet enlarges the focus from the album itself to the historic tradition of collecting drawings in northern Italy in the early modern

era before Vasari for which the album provides a new point of reference Throughout the book Karet discusses the Badile family examines the individual drawings in the book investigates the contacts between artists and humanists their rich diverse collections and the humanist mind set that fostered the appreciation of drawings She explores notable early drawing collections in northern Italy and the role of northern Italy as a center of collection in the sixteenth and seventeenth centuries The book concludes with two appendices a reconstruction of the original album including a discussion of the reconstruction process suggestions about what the album originally looked like and a page by page guide to its contents and a detailed analysis of Francis Matthiesen's career This book opens up new areas of inquiry into an overlooked subject [TV Guide](#)
