Top Screwups Doctors Make And How To Avoid Them

Richard N. Podell, William Proctor

Top Screwups Doctors Make And How To Avoid Them:

Top Screwups Doctors Make and How to Avoid Them Joe Graedon, Teresa Graedon, 2011-10-04 A primary care doctor is skeptical of his patient's concerns. A hospital nurse or intern is unaware of a drug's potential side effects. A physician makes the most common diagnosis while overlooking the signs of a rarer and more serious illness and the patient doesn't see the necessary specialist until it's too late. A pharmacist dispenses the wrong drug and a patient dies as a result. Sadly these kinds of mistakes happen all the time. Each year 6.1 million Americans are harmed by diagnostic mistakes, drug disasters and medical treatments. A decade ago the Institute of Medicine estimated that up to 98,000 people died in hospitals each year from preventable medical errors. And new research from the University of Utah HealthGrades of Denver and elsewhere suggests the toll is much higher. Patient advocates and bestselling authors Joe and Teresa Graedon came face to face with the tragic consequences of doctors' screwups when Joe's mother died in Duke Hospital, one of the best in the world, due to a disastrous series of entirely preventable errors. In Top Screwups Doctors Make and How to Avoid Them the Graedons expose the most common medical mistakes from doctor's offices and hospitals to the pharmacy counters and nursing homes. Patients across the country shared their riveting horror stories and doctors recounted the disastrous and sometimes deadly consequences of their colleagues' oversights and errors. While many patients feel vulnerable and dependent on their health care providers, this book is a startling wake up call to how wrong doctors can be. The good news is that we can protect ourselves and our loved ones by being educated and vigilant medical consumers. The Graedons give patients the specific practical steps they need to take to ensure their safety: the questions to ask a specialist before getting a final diagnosis, tips for promoting good communication with your doctor, presurgery checklists, how to avoid deadly drug interactions and much more. Whether you're sick or healthy, young or old, a parent of a young child or caring for an elderly loved one, Top Screwups Doctors Make and How to Avoid Them is an eye opening look at the medical mistakes that can truly affect any of us and an empowering guide that explains what we can do about it.

Going Menopostal Amy Alkon,2025-05-20 Half of the population the female half is getting healthcare based on medical myth rather than evidence Going Menopostal is Amy Alkon s mission to change that This book started with a flash Alkon s first hot flash Drenching night sweats insomnia and brain fog soon followed along with shame at feeling bewilderingly enraged at everyone and everything Alkon an award winning science columnist and author wanted to turn to her doctor But there was a problem More than half of the medical care we get in the US may not be based on or supported by adequate evidence according to the US National Academy of Medicine Knowing this Alkon began a deep dive into the research on menopause and perimenopause the 3 to 10 years leading up to menopause when women s symptoms are widely ignored dismissed and misdiagnosed despite doctors having every intention of helping their patients She was shocked by what she found Most gynecology departments lack even one doctor with training and expertise in menopausal and perimenopausal medicine and they expect their maternity and general reproductive health specialists to treat these conditions outside their scope of practice without informing patients a violation of medical ethics Perimenopause is wrongly viewed and treated as menopause lite a time of lowered estrogen levels when estrogen levels actually soar making many women miserably symptomatic Few doctors know that symptomatic perimenopausal women actually tend to lack progesterone and that replacing it with safe FDA approved progesterone would alleviate their insomnia hot flashes and other suffering and counteract cell overgrowth that can lead to breast and endometrial cancer Many doctors deny estrogen to their menopausal patients unaware of current research showing that estrogen not only alleviates symptoms but protects against cardiovascular disease soon to kill 1 in 3 women bone fractures metabolic syndrome and more Findings from studies done largely on middle class white women are wrongly applied to black women and other women of color ignoring crucial differences such as generally lower triglyceride levels in black women that can make heart disease harder to detect This meticulously researched book is written in clear everyday language that you don t need the slightest science background to understand along with

Alkon's signature dark humor equips you with the exact words to confidently ask critical questions and motivate your doctor to partner with you and treat you appropriately instead of giving you the treatment her favorite bus driver got told by her doctor to just wait out her raging insomnia night sweats and hot flashes Alkon's ultimate goal Empowering all women with the science and strategies they need to get the evidence based care they expect and deserve **This Life's Tempestuous Sea** Douglas Charles Toland, 2013-06-20

In a weak moment I have written a book Margaret Mitchell This book is a multilayered creation that touches on a wide array of topics many of them drawn from personal experiences Indeed you the lucky reader will be blessed with enough material for at least three books within one cover Why would I want to write such a multi themed book It wasn't my original intention Maybe I've learned an important lesson and won't do so next time Like many older folks I wanted to share what I have learned to be true and useful and couldn't seem to stay with a single topic I've lived long enough to confirm an important realization the gleanings from a well lived life are at least as important as knowledge gained vicariously through reading and classroom attendance But I think most people don't fully appreciate the value of their life lessons and end up taking most of them to the grave I want to counter that pattern and use this book to share as many of my gleanings as I can I also recognize several imminent dangers facing this nation and our planet and feel compelled to share these concerns Just as important I want my wife children and grandchildren to know more about who I was and who I've come to be I hope they will have occasions to use some of my wisdom Organizing for Corporate

Compliance ,1992 **Esquire** ,1988 **American Bookseller** ,1986 **Newsweek** Raymond Moley, Samuel Thurston Williamson, Malcolm Muir, Rex Smith, Joseph Becker Phillips, 1994

Physical Evidence Thomas T. Noguchi, Arthur Lyons, 1990 Forensic investigator Dr Eric Parker probes the suspicious death of wealthy and elderly June Webster whose remains are stored in a cryogenic lab *Critical Mistakes Nearly Every Doctor Makes* Susan Kersley, 2018-01-04 Doctors find it challenging to manage their time and life However this book discusses simple things every doctor can do to improve their work life balance and time management Susan Kersley is a retired doctor who became a Life Coach

When Your Doctor Doesn't Know Best Richard N. Podell, William Proctor, 1995-01-01 Discusses a range of medical errors and tells exactly what to do to anticipate prevent or reverse mistakes **Avoiding Medical Errors** Robert M. Fox, Chris Landon, 2020-04-08 This book written by a lawyer and a doctor explains to everyday readers ways in which they can avoid death and injury caused by medical mistakes It may be shocking to learn that preventable errors by doctor and hospital personnel are a leading cause of death and injury in the United States perhaps even exceeding the annual deaths caused by heart disease and cancer But avoiding these mistakes is possible and the rules found in this book will arm readers against the careless errors that lead to such deaths and injuries From hospitals to doctors' offices medical professionals are overwhelmed overtired even overworked and mistakes are sometimes unavoidable even with the best safety measures in place A resident at the end of a 36 hour on call stint may forget to wash her hands before performing a surgical procedure A chart may be

mismarked Medications may be inaccurately listed Test results may be inaccurately interpreted But patients are in a position to help themselves and their medical caregivers to avoid these mistakes by taking more active and attentive part in their own healthcare By being aware of the most common errors patients can look for ways to ask questions review information even examine test results with a critical eye toward their own health and specific situations Robert Fox and Chris Landon show them how *The Biggest Legal Mistakes Physicians Make and How to Avoid Them* Steven Babitsky,2005-01-01 The Biggest Legal Mistakes Physicians Make and How to Avoid Them is the essential easy to use desk reference that helps physicians avoid a myriad of hidden legal pitfalls The Biggest Legal Mistakes Physicians Make and How to Avoid Them is written in an extremely readable concise format It clearly flags over 1 200 of the costliest legal errors physicians make
