The Tyranny of Tradition in Piano Teaching Walter Ponce, 2019-10-07. The strict traditions of piano teaching have remained entrenched for generations. The dominant influence of Muzio Clementi (1752-1832), the first composer-pedagogue of the instrument, brought about an explosion of autocratic instruction and bizarre teaching systems exemplified in the mind-numbing drills of Hanon's *The Virtuoso Pianist*. These practices, considered absurd or abusive by many, persist today at all levels of piano education. This book critically examines two centuries of teaching methods and encourages instructors to do away with traditions that disconnect mental and creative skills.

Creative Research in Music Anna Reid, Neal Peres Da Costa, Jeanell Carrigan, 2020-12-29. *Creative Research in Music* explores what it means to be an artistic researcher in music in the twenty-first century. The book delineates the myriad processes that underpin successful artistic research in music, providing best practice exemplars ranging from Western classical art to local indigenous traditions and from small to large-scale multi-media and cross-cultural work formats. Drawing on the richness of creative research work at key institutions in South East Asia and Australia, this book examines the social, political, historical, and cultural driving forces that spur and inspire excellence in creative research, to extend and to cross boundaries, to sustain our music industry, to advocate for the importance of music in our world, and to make it clear that music matters. In the chapters, our authors present the ideas of informed practice, innovation, and transcendence from diverse international perspectives. Each of these three themes has an introductory section where the theme is explored, and the chapters in that section introduced. Taken as a whole, the book discusses how the themes, in combination with reference to the authorial group, are able to transform music pedagogy and performance for our global and complex world. Chapter 9 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution-NonCommercial-NoDerivatives (CC BY-NC-ND) 4.0 license.
