## Operation

### Filling the Fuel Tank

Gasoline is extremely flammable and explosive. A fire or explosion from gasoline can burn you and others.

- To prevent a static charge from igniting the gasoline, place the container and/or mower directly on the ground before filling, not in a vehicle or on an object.
- Fill the tank outdoors when the engine is cold. Wipe up spills.
- Do not handle gasoline when smoking or around an open flame or sparks.
- Store gasoline in an approved fuel container, not in the reach of children.

Fill the fuel tank with fresh unleaded regular gasoline from a major name-brand service station. (Figure 9).

**Important note:** To reduce starting problems, add fuel stabilizer to the fuel oil as soon, mixing it with gasoline less than 30 days old.
