tort law the book equally importantly seeks to develop understanding of its relationship with other areas of the law of obligations It also permits clearer understanding of the relationship between common law and statutory torts and throws fresh light on the links between tort law and its functions American Book Publishing Record ,2002 **Tort Law**

**Defences** James Goudkamp,2013-07-31 The law of torts recognises many defences to liability While some of these defences have been explored in detail scant attention has been given to the theoretical foundations of defences generally In particular no serious attempt has been made to explain how defences relate to each other or to the torts to which they pertain The goal of this book is to reduce the size of this substantial gap in our understanding of tort law The principal way in which it attempts to do so is by developing a taxonomy of defences The book shows that much can be learned about a given defence from the way in which it is classified This book has been awarded Joint Second Prize for the 2014 Society of Legal Scholars Peter Birks Prize for Outstanding Legal Scholarship Bowker's Law Books and Serials in Print ,2000 **1989 Centennial Celebration Proceedings of the Actuarial Profession in North America, June 12-14, 1989, Washington, D.C.** ,1990
