Experience, Culture and Religion in Systematic Theology Edmond Zi-Kang Chua, 2023-09-28 Most systematicians take as their starting point the nature of God and scripture as the means by which God's nature is revealed but what would a systematic theology look like that began with an experiential knowledge of God Here Edmond Chua offers a method for just such an approach Beginning with realms of human experience including psychology cultural diversity and religious plurality he builds the framework of a systematic theology that is inclusive and pluriform while retaining the core tenets of a Christian doctrine of God Notwithstanding his novel methodology Chua's argument remains biblically rooted and appreciative of the Christian tradition In the latter half of the book he returns to the classical doctrines of the Trinity Christology evil sin and salvation allowing his inclusive view of the human religious experience to shed new light on the wisdom bequeathed by Paul Augustine Aquinas Luther Barth and others The result is a bold Christian vision that is culturally engaged and globally applicable of interest to systematic theologians while contributing to interreligious dialogue
