Photography ,1893 **Repetition and Identity** Catherine Pickstock,2013-10-03 The Literary Agenda is a series of short polemical monographs about the importance of literature and of reading in the wider world and about the state of literary education inside schools and universities The category of the literary has always been contentious What is clear however is how increasingly it is dismissed or is unrecognised as a way of thinking or an arena for thought It is sceptically challenged from within for example by the sometimes rival claims of cultural history contextualized explanation or media studies It is shaken from without by even greater pressures by economic exigency and the severe social attitudes that can follow from it by technological change that may leave the traditional forms of serious human communication looking merely antiquated For just these reasons this is the right time for renewal to start reinvigorated work into the meaning and value of literary reading Repetition and Identity offers a theory of the existing thing as such A thing only has identity and consistency when it has already been repeated but repetition summons difference and the shadow invocation of a connecting sign In contrast to the perspectives of Post structuralism Catherine Pickstock proposes that signs are part of reality and that they truthfully express the real She also proposes that non identical repetition involves analogy rather than the Post structuralist combination of

univocity and equivocity or of rationalism with scepticism This proposal which is happy for reality to make sense involves however a subjective decision which is to be poetically performed A wager is laid upon the possibility of a consistency which sustains the subject in continuity with the elusive consistency of nature This wager is played out in terms of a performative argument concerning the existential stances open to human beings It is concluded that the individual sustains this quest within the context of an inter subjective search for an historical consistency of culture But can ethical consistency and the harmonisation of this with an aesthetic surplus of an elsewhere invoked by the sign be achieved without a religious gesture And can this gesture avoid a tragic tension between ethical commitment and religious renunciation Pickstock suggests a Kierkegaardian re reading of the Patristic categories of recapitulation and reconstitution can reconcile this tension The quest for the identity and consistency of the thing leads us from the subject through fiction and history and to sacred history to shape an ontology which is also a literary theory and a literary artefaction Photographing Childhood, the Image and the Memory LaNola Stone,2012-11-12 Children are one of the most intriguing yet difficult subjects to photograph Whether you are a proud parent who wants to capture the fleeting moments of childhood or a professional photographer working with paying clients Photographing Childhood The Image and the Memory will give you the know how and the inspiration that you are looking for to create the perfect image Rich with emotion and creativity this guide delivers tips from a master photographer who has contributed to Child Magazine Pottery Barn Martha Stewart Omnimedia and many others Learn how to take photos that are technically and compositionally sound pictures that are so gorgeous they ll fill up your walls refrigerator and your family s or clients email in boxes for years to come This book goes way beyond photography basics There are countless important events and stages to document in a child s life learn the secrets to making sure you don t miss a single photo opportunity Be inspired by amazing shots from several historical and contemporary photographers Working with children can be particularly tricky and this book shows you what pitfalls to avoid to prevent tantrums your own or your subjects Before you know it you ll have a collection of great shots that you ll want to share for personal or professional purposes You will not find a more engaging expressive or nostalgic guide to taking photos of what you love most children Featured Historical Photographers Southworth and Hawes Julia Margaret Cameron Gertrude K sebier Lewis Hine Edward Steichen Jacques Henri Lartigue Heneri Cartier Bresson Featured Contemporary Photographers Sebasti o Salgado Brazil Emmet Gowin USA Joyce Tenneson USA Melissa Anne Pinney USA Robin Schwartz USA Takashi Homma Japan Rania Matar Lebanon Achim Lippoth Germany Anders Hald Denmark Cuny Janssen The Netherlands **The Photo-miniature** ,1918
