## **Undocumented How Immigration Became Illegal:**

*Undocumented* Aviva Chomsky, 2014-05-13 A longtime immigration activist explores what it means to be an undocumented American in this impassioned and well reported case for change New York Times In this illuminating work immigrant rights activist Aviva Chomsky shows how illegality and undocumentedness are concepts that were created to exclude and exploit With a focus on US policy she probes how people especially Mexican and Central Americans have been assigned this status and to what ends Blending history with human drama Chomsky explores what it means to be undocumented in a legal social economic and historical context The result is a powerful testament of the complex contradictory and ever shifting nature of status in America

**Christianity and Migration** Peter C. Phan, Oxford Editor, 2025-10-07 This book essays a not the Christian theology of migration The phenomenon of human migration that is the movement of people to and settlement temporary or permanent in a new area or country its causes and reasons and its historical anthropological social political legal and cultural dimensions have been widely studied and reasonably well understood and the next chapter will discuss them in detail By contrast theology as an academic discipline seems least capable of illuminating this human phenomenon It appears to most people outside the church and its educational institutions to be at best an esoteric subject and at worst a convoluted and useless mumbo jumbo especially when liberally sprinkled with Greek and Latin phrases Why not leave the study of migration to scholars in history sociology anthropology economics politics and law who albeit no less infected with highfalutin language than theologians do at least try to offer practical policies and effective strategies either for or against immigration Provided by publisher

Undocumented Storytellers Sarah C. Bishop, 2019 *Undocumented Storytellers* offers a critical exploration of the ways undocumented immigrant activists harness the power of storytelling to mitigate the fear and uncertainty of life without legal status and to advocate for immigration reform Sarah C Bishop chronicles the ways young people uncover their lack of legal status experientially through interactions with parents in attempts to pursue rites of passage reserved for citizens and as audiences of political and popular media She provides both theoretical and pragmatic contextualization as activist narrators recount the experiences that influenced their decisions to cultivate public voices Bishop draws from a mixed methodology of in depth interviews with undocumented immigrants from eighteen unique nations of origin critical rhetorical ethnographies of immigrant rights events and protests and narrative analysis of immigrant produced digital media to interrogate the power and limitations of narrative activism Autobiographical immigrant storytelling refutes mainstream discourse on immigration and reveals the determination of individuals who elsewhere have been vilified by stereotype and presupposition Offering an unparalleled view into the ways immigrants stories appear online Bishop illuminates digital narrative strategies by detailing how undocumented storytellers reframe their messages when stories have unintended consequences The resulting work provides broad insights into the role of strategic framing and autobiographical story sharing in advocacy and social

*Sanctuary Cities, Communities, and Organizations* Melvin Delgado, 2018-08-29 This is the first academic book to address the subject of sanctuary cities in the United States. The topic is of immense saliency in the socio-political discourse in the United States, with events breaking practically every week concerning the fate of those who are undocumented in this country, including people with DACA statuses. The text provides a comprehensive and up-to-date view of the national issue that promises to continue to stay in the public glare during 2018 and beyond.

### **Borders of Care**

Beatrix Hoffman, 2025-02-11 Probes the relationship between the immigration and health care systems in the United States. For the roughly ten million undocumented immigrants living in the United States, federal health care coverage is out of reach. Barred from Medicare, Medicaid, and the Affordable Care Act, most rely on hospital emergency rooms when they get sick or clinics that don't inquire about immigration status. Further obstacles to health care, including discrimination and the fear of deportation, mean that immigrants, undocumented or not, seek and receive less medical attention than any other population in the country. Yet immigrants haven't always been ostracized from health care in the United States; providers and activists have for over a century worked to make medical services available to newcomers and migrants, including at times the undocumented. Drawing together stories from diverse communities from the mid-nineteenth century to the present, *Borders of Care* examines how health care in the United States has both included and excluded immigrants. Beatrix Hoffman analyzes both the health and immigration systems, adding to our understanding of why these structures and the policies that support them have resisted reform. Moreover, she shows that immigrants often scapegoated as burdens on the health care system have strengthened it through their responses to systemic exclusion. By creating hospitals and clinics serving as practitioners fighting for safer workplaces, filing lawsuits, organizing, and protesting, immigrants and migrants have improved medical access for everybody and advanced the idea of health care as a universal right. As accessible as it is authoritative, Hoffman's survey could not be more timely.

It relates to the everyday lives of students and sparks good classroom discussions. The selections represent four theoretical traditions in sociology: functionalism, symbolic interaction, conflict theory, and feminism, and show the range and diversity of sociology and the people who practice it. The book is designed for instructors who want to expose students to some original scholarship in their first sociology course but who do

**U.S. Immigration Policy and the Undocumented** Helene Hayes, 2001-07-30

Hayes analyzes the situation of undocumented immigrants in the U.S. and what happens to them in the aftermath of implementation of two key provisions of the 1986 Immigration Reform and Control Act (IRCA) - legalization and employer sanctions. Referred to by legislators as a generous and compassionate bill that would legalize much of the undocumented population in our midst, it resulted instead in placing a highly vulnerable silent subclass in deeper jeopardy. Hayes traces the history of undocumented immigration, Congressional debate and implementation of IRCA, and provides direct access to the faces of the undocumented through original empirical research on the social and economic impact of IRCA on specific groups of undocumented Haitian, Irish, and Salvadoran immigrants. The general theme is America's ambivalence towards its historic lifeline new immigrants, whether legal or undocumented, and how the two central provisions of IRCA uniquely embodied within the same piece of legislation, contradictory and ambivalent attitudes toward immigrants, which became the seeds of its implementation.

Hayes looks at the issue of undocumented immigration from a legislative policy, human rights, and implementation perspective, but she also points beyond national strategies to push factors emanating from the home countries of the undocumented and makes the case that undocumented immigration is a global social problem that needs global solutions. The book is of particular interest to policy makers, scholars, and other researchers and students involved with social policy and welfare, immigration law, and ethnic studies.

**The Gatekeepers** Michael C. LeMay, 1989-02-17

The Gatekeepers examines the politics and policy of immigration in six countries: the United States, Australia, Great Britain, Germany, Israel, and Venezuela. Each chapter is authored by a noted specialist who analyzes his or her country's experience by focusing upon how social and economic trends over time have helped to shape and explain national immigration policies. This unique comparative politics approach to the subject offers students of public policy and comparative government important new insights into the policy process in general and the dynamics of immigration politics in particular. The countries included in the study vary considerably in their fundamental approach to the question of immigration. Some have relied upon a guestworker approach, others have developed policies aimed at permanent settlement. Some have formulated religious based policies while others have attempted to recruit foreign labor. And as the contributors demonstrate, each of the countries has experienced international migration on a scale which was largely unforeseen and for which they were poorly prepared. Many too have evidenced profound shifts in immigration policy over time. The contributors fully address all of these issues offering a wealth of information about the
