**Science In the Best Interest of the Child's Mental Health and Self-Awareness** Christopher K. Slaton EdD,2025-06-27 Your Body wears trained states of Mind Your Brain wears the Body which reveals the process states of your emotions As energy actions and feelings traverse your Brain and Body interaction your senses transfer signals This is because when the Body reacts your Brain must send forward feed from where you are in the Crisis of Self The applied use of systems thinking led to human systems science as the study of the brain body and sense events Hence the applied use of human science led to the study of human cognitive and behavioral sciences As a practitioner of human systems science Christopher Slaton s interest has always focused on the study of human contact human cognition and human behavior Human systems science fosters a child s capacity to learn who they are This book aims to advance brain learning and the neurophysics of self by exploring the complex dance between a child s mental health and brain body and sense messaging Dr Slaton decodes ways to foster a child s capacity to learn who they are within the context of self research self help and self discovery in this volume of a new frontier of brain talk      *Towards a New Science of Health* Stephen Fulder, Robert Lafaille,2005-08-15 Provides a radical alternative to current biomedical thinking by providing a framework drawn from a range of approaches such as systems theory and social relations with the aim of bridging the gap between personal experience and hard knowledge

*Education and Science in the Best Interest of the Child* Christopher K. Slaton EdD,2016-11-29 Search for Policy We have confirmed through our October 11 2016 building human assets meeting with the California Department of Education that

there is no federal or state policy in place to address the eligibility status of children from a family history of suffering from substance abuserelated disorders Hence the Building Human Assets Project Human Systems Research in Education study is in an area not covered by federal or state laws or regulations This is why a new scientific approach is needed in the best interest of the child To the benefit of all children the Individuals with Disabilities Act was reauthorized and signed into law on December 3 2004 as the Individuals with Disabilities Education Improvement Act of 2004 Public Law 108 446 This includes several requirements effective July 1 2005 which calls for states to establish policies and regulations that require referral for early intervention services of a child under the age of three who is identified as affected by illegal substance abuse or withdrawal symptoms resulting from parental drug exposure Section 637 a 6 B This relates to the anatomy of the child suspected of suffering from a family history of substance abuserelated disorders The Keeping Children and Families Safe Act of 2003 was intended to add new requirements under the Child Abuse Prevention and Treatment Act of 2004 to include the requirement that states have policies and procedures in place which require health care providers to notify Child Protective Services of infants born and identified as being affected by illegal substance abuse or withdrawal symptoms that result from prenatal drug exposure Hence the educational implications for children inflicted with disorders as a result of exposure to drugs in the utero Early intervention and treatment is a basic need The 2015 Every Student Succeeds Act ESSA shifts federal accountability provisions to the states ESSA is the law that governs the United States K 12 public education policy and replaces the No Child Left Behind Act through the reauthorization of the 1965 elementary and secondary education Act ESEA ESEA established the American federal governments expanded role in funding education in the best interest of the child This is the sense through which the words the family community engagement reflects on the compelling needs of the child the family and the community     **Catalog of Copyright Entries.
