## **Unilateral Coalition Operations Intervention Historical:**

*A Military History of the Cold War, 1962-1991* Jonathan M. House, 2020-09-24 Study of the Cold War all too often shows us the war that wasn't fought. The reality of course is that many hot conflicts did occur some with the great powers weapons and approval others without. It is this reality and this period of quasi war and semiconflict that Jonathan M House plumbs in *A Military History of the Cold War 1962 1991* a complex case study in the Clausewitzian relationship between policy and military force during a time of global upheaval and political realignment. This volume opens a new perspective on three fraught decades of Cold War history revealing how the realities of time distance resources and military culture often constrained and diverted the inclinations or policies of world leaders. In addition to the Vietnam War and nuclear confrontations between the USSR and the United States this period saw dozens of regional wars and insurgencies fought throughout Asia Africa and Latin America. Cuba Pakistan Indonesia Israel Egypt and South Africa pursued their own goals in ways that drew the superpowers into regional disputes. Even clashes ostensibly unrelated to the politics of East West confrontation such as the Nigerian Biafran conflict the Falklands Malvinas War and the Indonesian occupation of East Timor involved armed forces weapons and tactics developed for the larger conflict and thus come under House's scrutiny. His study also takes up nontraditional or specialized aspects of the period including weapons of mass destruction civil military relations civil defense and control of domestic disorders. The result is a single integrated survey and analysis of a complex period in geopolitical history which fills a significant gap in our knowledge of the organization logistics operations and tactics involved in conflict throughout the Cold War.

**Foreign Policy Rhetorics in a Global Era** Allison M. Prasch, Sara L. McKinnon, 2024-11-01 This volume takes concepts familiar to foreign policy scholars and reimagines their usefulness in a global era. The essays in this collection feature unique methodological and theoretical contributions to rhetorical scholarship. The field of rhetorical studies often assumes a US centric approach that elevates American chief executives as the sole doers and makers of foreign policy discourse. This work points to a more comprehensive global perspective of foreign policy discourse and offers key concepts case studies and approaches. It also examines who enacts discourse where it happens and how it influences relationships in between local national transnational and global spheres. Among the cases researched in this collection are foreign policy rhetoric from Cold War foreign policy in Latin America the rhetoric of Vladimir Putin's Ukraine war messages and the development challenges of the Ford Foundation and the Kenya Women Finance Trust among many others.

Greenberg, 2015-12-08 This publication the fifth in the Historical Analysis Series addresses the role of the United States Army in the Dominican Republic intervention of 1965 Conducted by the 82d Airborne Division the operation encompassed unilateral combat and peace keeping duties as well as participation in a regional multinational peace keeping military force The only coalition military force ever fielded by the Organization of American States the Inter American Peace Force signified a peak in regional cooperation in the Americas For operation planners Army leaders and students of military or diplomatic history this study provides an opportunity to examine the role of large scale military intervention as an integral part of American foreign policy execution President Lyndon B Johnson used American military force to support the diplomatic settlement of the Dominican Civil War and the violence and threat of Communist expansion it possessed As commander of American ground forces Lt Gen Bruce Palmer Jr implemented procedures which stressed often changing definitions of American neutrality restraint by the individual soldier and cooperation and coordination with the U S Department of State the Organization of American States and the six nation Latin American contingent to the Inter American Peace Force General Palmer's ability to deal with political organizations and his determination to support American diplomatic initiatives with the application of firm but restrained military force is a model for future coalition operations A pertinent section of this paper examines the perceptions apprehensions and debates within the Organization of American States that surrounded the formation of the Inter American Peace Force The organization's members faced a major dilemma did the violence and possible threat of Communist expansion in the Caribbean justify their perceived threat of an American return to unilateral military interventionism The manner in which they dealt with this problem not only formed the basis for establishing the Inter American Peace Force but greatly influenced both President Johnson's decision to intervene and the subsequent conduct of the entire operation **Military Review**, 1989 *Semper Fidelis* Allan Reed Millett, 1991 This highly acclaimed and comprehensive history of the Marine Corps is the definitive story of the Corps from its beginnings at sea to an amphibious assault force during World War II to the principal force in readiness for action for the last 45 years Completely revised and updated this new edition of *Semper Fidelis* promises to be the history of the Marines for the decade ahead Two 8 page photo inserts **Military Crisis Management** Herbert G. Schoonmaker, 1990-02-15 This account of the 1965 Dominican intervention is a case study in U S crisis management Herbert Schoonmaker analyzes the role and management of U S military forces in the Dominican crisis Like other Cold War interventions the Dominican intervention demonstrated the use of rapidly reacting joint military forces to achieve limited political objectives It also represents a good vehicle for analyzing U S civilian military relationships during this kind of

military operation At the same time the civil strife continued in Santo Domingo U S military forces engaged in a variety of duties both combat and peacekeeping and did so while the Organization of American States the United Nations and U S government teams attempted to negotiate a peaceful settlement Such a complex environment Schoonmaker argues necessitated tight civilian control of the engaged armed forces and required restraint in carrying out their combat duties In addition to the political military factors Schoonmaker also focuses on the joint army navy air aspects of the operation He concentrates on the uniqueness of the intervention which makes the lessons learned from it applicable in some circumstances but not in others A study of the Dominican intervention is important because of its implications for defense needs and structure in a time of tight military budgets The author also outlines the problems associated with quick reacting forces and indicates the necessity for efficient intelligence communications logistics and command and control This book is must reading for military theoreticians and strategists historians and political scientists Proceedings of the ... Greenberg,1987 This study is an examination of 1965 intervention into the Dominican Republic by US forces primarily from the 82d Airborne Division Although this study covers the actual armed intervention and subsequent fighting between Dominican rebels and American soldiers it also delves into the political and strategic reasons behind President Johnson s ordering the military action As part of this political overview the report addresses the role of the Organization of American States the Inter American Peace Force and of several Latin nations who participated in the 18 month long intervention As a part of his presentation the author highlights the importance of many non military roles and functions performed by key players to speed the Dominican Civil War to a negotiated close and bring the nation back on the road toward democratic government Proceedings of the ...
