

# WIFI PINEAPPLE

*A Hak5 Prodigy*

Introduction

1

The **WiFi Pineapple** was created as a pen testing tool by **hak5**, a company known for its' infosec technology store. The product was essentially developed to assist IT professionals to check if their networks are vulnerable.

2

How the WiFi Pineapple works is that it would scan all of the SSIDs, then re-broadcast these SSIDs to trick devices into thinking that they have connected to those access points in the past.

3

When the real active virus/bacteria enters the body, it is recognised by the defence system which may eliminate it

4

Your body's natural defences are enhanced by the vaccination
