

# HOW TO PREPARE FOR SUCCESSFUL STUDENT LOAN REPAYMENT

Use your FSA ID to log in to StudentAid.gov

01

Your FSA ID (the same you used to complete your FAFSA) will include a username and password. Once logged in, update your personal information and confirm your student loan servicer.

Confirm your student loan servicer

02

Your servicer may vary depending on the type of loan you have. If you don't know who your servicer is, log on to [studentaid.gov](https://studentaid.gov) and visit the "My Loan Servicers" section of your dashboard.

Log in to your loan servicer account and update your contact information

03

Create an account or log in to an existing one via the servicer's website. Review and update your personal contact information, including your email and mailing address, so your servicer can reach you.

Reauthorize or select auto debit for monthly payments

04

If you were previously signed up for automatic debit before the payment pause began, you must reauthorize or select automatic debit through your loan servicer account. This will allow your loan payments to be automatically withdrawn from your bank account every month.

Review payment due date and amount

05

Make note of your monthly payment amount and the date your first payment will be due, and update any changed banking information to ensure you either proactively make a payment by the deadline or are prepared for the funds to be drawn down by auto debit.

*iTake-Over* David Arditi, 2014-12-11

iTake Over The Recording Industry in the Digital Era sheds light on the way large corporations appropriate new technologies related to recording and distribution of audio material to maintain their market dominance in a capitalist system All too commonly scholars have asserted too confidently how the rise and reign of digital music has diminished the power of major record labels In iTake Over music scholar David Arditi argues otherwise adopting a broader perspective by examining how the recording industry has strengthened copyright laws for their corporate ends at the expense of the broader public good which has traditionally depended on the safe harbor of fair use Arditi also challenges the dominant discourse over digital music distribution which has largely adopted the position that the recording industry has a legitimate claim to profitability at the detriment of a shared culture iTake Over more specifically surveys the actual material effects that digital distribution has had on the industry Most notable among these is how major record labels find themselves in a stronger financial position today in the music industry than they were before the launch of Napster Arditi contends that this is largely because of reduced production and distribution costs and the steady gain in digital music sales Moreover instead of merely trying to counteract the phenomenon of digital distribution the RIAA and the major record labels embraced and then altered the distribution system Throughout the 1990s and early 2000s the RIAA lobbied for legislation built technologies and waged war in the courts in order to shape the digital environment for music distribution From mp3s to the Digital Millennium Copyright Act DMCA from the Audio Home Recording Act AHRA to iTunes the major record labels and the RIAA instead of trying to torpedo the switch to digital distribution engineered it to their benefit often at the expense of the public interest Throughout Arditi boldly asserts that the sea change to digital music did not destroy the recording industry Rather it stands as a testament to the recording industry's successful management of this migration to digital production and distribution As such this work should appeal to musicians and music scholars political scientists and sociologists technologists and audio professionals seeking to grasp this remarkable change in music production and consumption

**Repay As You Earn** Philip G. Schrag,2001-11-30 In 1993 Congress created a student loan repayment plan intended to enable high debt graduates to accept low income public service jobs by reducing their loan payments and eventually forgiving part of their debts But this Congressional initiative only helps those with catastrophically low incomes It has failed to attract many users because as implemented through regulations of the U S Department of Education it requires payment over too long a period 25 years before forgiveness Many students go to graduate and professional schools in pursuit of careers in public service But they often must borrow 100 000 or more to finance their education Their loan repayment obligations become so high that they can no longer afford to follow their ideals and they abandon their plans to have public service careers and seek employment with corporations or firms offering high salaries The income contingent repayment plan should have appealed to would be public interest lawyers who are among the graduates with the highest debt to income ratios but the plan has failed them and Schrag explores why and how the plan should be reformed either by Congress or by the federal administration
