*International Review of History Education* Mario Carretero, James Voss, 2013-09-05 This volume consists of the proceedings of an international conference on cognition and instruction in history. The papers cover several areas: historical narratives and history teaching; the use of texts, documents and images in learning history and historical explanation and understanding.

**Structures and Architecture** Paulo J. Cruz, 2016-10-14 Although the disciplines of architecture and structural engineering have both experienced their own historical development, their interaction has resulted in many fascinating and delightful structures. To take this interaction to a higher level, there is a need to stimulate the inventive and creative design of architectural structures and to persuade architects and structural engineers to further collaborate in this process, exploiting together new concepts, applications and challenges. This set of book of abstracts and full paper searchable CD ROM presents selected papers presented at the 3rd International Conference on Structures and Architecture Conference ICSA2016 organized by the School of Architecture of the University of Minho, Guimarães, Portugal, July 2016, to promote the synergy in the collaboration between the disciplines of architecture and structural engineering.
