**Transnational Environmental Law in the Anthropocene** Emily Webster, Laura Mai, 2021-03-30 Anthropocene is the proposed name for the new geological epoch in which humans have overwhelming impact on planetary processes This

edited volume invites reflection on the meaning and role of law in light of changing planetary realities Taking the concept of the Anthropocene as a starting point the contributions to this book address emerging legal issues from a transnational environmental law perspective How law interacts with and how law governs global environmental problems is a challenge that legal scholars have approached with vigour over the last decade More recently the concept of the Anthropocene has become a topic that researchers have also begun to grapple with by engaging with disciplines beyond legal scholarship One avenue of research that has emerged to address global environmental problems is transnational environmental law Adopting transnational law as a lens or framework through which to analyse environmental law takes a broader approach to the ways in which law may be assessed and deployed to meet planetary challenges The chapters within this book provide a timely intervention into the theoretical and practical approaches of transnational environmental law in a time of significant uncertainty and environmental and human crises The chapters in this book were originally published as a special issue of *Transnational Legal Theory* **Bibliographic Guide to Law**, 1987 [The Future of Cross-Border Insolvency](#) Irit Mevorach, 2018-03-01 A fresh and insightful guide to post financial crisis cross border insolvency this book interrogates the current regime and sets out a framework for improving its future In recent decades and especially since the global financial crisis a number of important initiatives have focused on developing the mechanisms for managing the insolvency of multinational enterprises and financial institutions The book considers the effectiveness of the current system and identifies the gaps that could be bridged by adopting certain strategies and tools to improve the system further The book first discusses the theoretical debate regarding cross border insolvency and surveys the strengths and weaknesses of the prevailing method modified universalism in its application to both commercial entities and financial institutions consequently identifying a single set of emerging norms The book argues that adhering to these norms more robustly would enhance global welfare and produce the best outcomes for businesses and institutions By drawing upon sources from international law as well as behavioural and economic theory the book offers a blueprint for meeting the demands of future cross border insolvencies It considers how to translate modified universalism into binding international law and how to choose the right instrument for cross border insolvency as well as the impact that instrument design has on decisions and choices It explores how to encourage compliance and proposes mechanisms that could potentially overcome or at least take into account behavioural biases in decision making *Oxford Textbook of Public Mental Health* Dinesh Bhugra, Kamaldeep Bhui, Samuel Yeung Shan Wong, Stephen E. Gilman, 2018-09-13 Prevention of mental illness and mental health promotion have often been ignored in the past both in undergraduate and postgraduate curricula Recently however there has been a clear shift towards public mental health as a result of increasing scientific evidence that both these actions have a serious potential to reduce the onset of illness and subsequent burden as a result of mental illness and related social economic and political costs A clear distinction between prevention of mental illness and mental health promotion is critical Selective prevention both at societal
