## Zelle Compare Open Now:

Structured Biological Modelling Michael Kraus, Bernhard Wolf, 2024-11-01 Structured Biological Modelling presents a straightforward introduction for computer aided analysis mathematical modelling and simulation of cell biological systems. This unique guide brings together the physiological structural molecular biological and theoretical aspects of the signal transduction network that regulates growth and proliferation in normal and tumor cells. It provides comprehensive survey of functional and theoretical features of intracellular signal processing and introduces the concept of cellular self organization. Exemplified by oscillatory calcium waves strategies for the design of computer experiments are presented that can assist or even substitute for time consuming biological experiments. The presented minimal model for proliferation associated signal transduction clearly shows the alterations of the cellular signal network involved in neoplastic growth. This book will be useful to cell and molecular biologists oncologists physiologists theoretical biologists computer scientists and all other researchers and students studying functional aspects of cellular signaling.
