Beyond Blueprints: Advancements in Architectural Education and Innovations Husam R. Husain and Hourakhsh Ahmad Nia, 2023-11-01 *Beyond Blueprints Advancements in Architectural Education and Innovations* is a groundbreaking exploration of the dynamic world of architectural education and the remarkable advancements shaping the future of the discipline. In this book, a diverse group of authors from various backgrounds come together to present a comprehensive overview of the latest technologies, methodologies, and approaches revolutionizing the way architecture is taught and practiced. Spanning seven thought-provoking chapters, this book delves into the cutting-edge developments that are reshaping architectural education. From the integration of artificial intelligence (AI) and virtual reality (VR) into design processes to the innovative use of digital tools, readers will discover how technology is expanding the boundaries of architectural creativity and problem-solving. Through captivating case studies and insightful analyses, the authors shed light on the transformative power of these tools, empowering architects and educators to explore new horizons. Furthermore, *Beyond Blueprints* explores the evolution of architectural programs and curriculum, highlighting the emergence of interdisciplinary approaches that foster collaboration and integrate diverse perspectives. With contributions from experts in architecture, technology, and education, this book offers a comprehensive and forward-thinking guide to the future of architectural education. It provides valuable insights for educators, students, and professionals alike, inspiring them to embrace the limitless possibilities that lie beyond traditional blueprints. *Beyond Blueprints Advancements in Architectural Education and Innovations* is an indispensable resource for those seeking to shape the future of architecture and drive positive change in the built environment.

Computer-Human Interaction Research and Applications Hugo Plácido da Silva, Pietro Ciproso, 2025-03-07 This two-volume set (CCIS 2370 and CCIS 2371) constitutes the proceedings of the 8th International Conference on Computer Human Interaction Research and Applications (CHIRA 2024) held in Porto, Portugal, during November 21-22, 2024. The 16 full papers and 45 short papers presented in these volumes were carefully reviewed and selected from 76 submissions. These papers focus on the research advancements and practical applications within various areas in the field of Computer Human Interaction, including Human Factors and Information Systems, Interactive Devices, Interaction Design, and Adaptive and Intelligent Systems.

Artificial Historians Marnie Hughes-Warrington, Anne Martin, Lewis Yarlupurka O'Brien, 2025-08-08 This book offers readers an introduction to the world of artificial histories and historians. It looks behind the interfaces of AI and explores everyday platforms and prize-winning history books to identify how people and algorithms make histories and how they might make histories in the future. Every moment around the globe, histories are made about ordinary people who use digital devices. These histories are not made by professional historians or even by humans but by artificial intelligence that scours our digital footprints for patterns. AI histories not only shape recommendations about what we might buy or stream but also our access to education, healthcare, and justice. The outcomes of recommendation systems are not just a technology problem or an ethics

problem This book argues that this is also a history problem and it needs to be understood as one if we are to make fairer or more just systems It shows us that the deep history of history making including Australian Aboriginal and First Nations histories can help us to navigate the future of history in AI Presenting readers with a range of familiar and accessible examples Artificial Historians is a valuable resource for students scholars and all those interested in global historiography technology and artificial intelligence
