

Foreword

This Operator's Manual is intended as a guide for the correct use and maintenance of the machine. The manual should always be kept in the machine.

WARNING!

Do not operate this machine and do not carry out any maintenance until you have thoroughly studied and understood this Operator's Manual and its content.

If the manual should be lost – replace it immediately with a new manual.

Study the manual carefully before starting and operating the machine, and before all service or maintenance work.

The machine is primarily intended to be used as described in this manual.

Make yourself familiar with all controls and instructions in the Operator's Manual. Machines rarely cause accidents, whereas people do. A safety conscious person and a well maintained machine make a safe, efficient and profitable combination.

NOTE: This manual has been adapted to cover all markets. Various equipment for specific markets are described in the manual. We therefore ask you to disregard the sections which are not applicable to your machine.

We retain the right to change data and equipment, as well as instructions for service and maintenance, without prior notice. However, this does not mean it is intended for the improvements on products which have already been delivered or are in service.

Safety regulations

Every country (state) has its own safety regulations. It is the obligation of the operator to know and follow these.

This also applies to local regulations and regulations for different types of operation. Local safety regulations in your country must always be followed, regardless of what is written in this manual.

The symbol below is shown at various points in the manual together with a warning statement and it means:

WARNING!

Warning, be alert! Your safety is involved!
To ignore the risks may lead to an accident, serious injuries or death.
It is the obligation of the operator to make sure that all warning decals are in place on the machine and that they are readable. Accidents may otherwise occur.

Get to know the capacity and limits of your machine!
