

# **2015 Study Guide**

## **Subject CT4**

### **Introduction**

This Study Guide contains all the information that you will need before starting to study Subject CT4 for the 2015 exams. Please read this Study Guide carefully before reading the Course Notes, even if you have studied for some actuarial exams before.

When studying for the UK actuarial exams, you will need:

- a copy of the **Formulae and Tables for Examinations of the Faculty of Actuaries and the Institute of Actuaries, 2nd Edition (2002)** – these are often referred to as simply the "Yellow Tables"
- a "permitted" scientific calculator – you will find the list of permitted calculators on the profession's website. Please check the list carefully, since it is reviewed each year.

These are both available from the Institute and Faculty of Actuaries' eShop. Please visit [www.actuaries.org.uk](http://www.actuaries.org.uk).

### Teaching

**Contemporary English Literature** Hans Osterwalder,2017-08-14 This book provides a theoretical introduction to the task based methodology in language and literature teaching For teachers the main points of interest are Part Two and Three where a plethora of contemporary texts both from Britain and the US are given a literary analysis which is followed by detailed task based lesson plans Part Two focuses on multiculturalism one of the seminal issues of our time Part Three tackles gender another highly topical theme which students are naturally interested in Well known authors like the British Asian writer Hanif Kureish and the Indian American novelist Jhumpa Lahiri feature in the chapter on multiculturalism the gender question is represented by Carol Ann Duffy the current Poet Laureate and Caryl Churchill the main representative of feminist drama

**Cyber Dragon** Dean Cheng,2016-11-14 This book provides a framework for assessing China s extensive cyber espionage efforts and multi decade modernization of its military not only identifying the what but also addressing the why behind China s focus on establishing information dominance as a key component of its military efforts China combines financial firepower currently the world s second largest economy with a clear intent of fielding a modern military capable of competing not only in the physical environments of land sea air and outer space but especially in the electromagnetic and cyber domains This book makes extensive use of Chinese language sources to provide policy relevant insight into how the Chinese view the evolving relationship between information and future warfare as well as issues such as computer network warfare and electronic warfare Written by an expert on Chinese military and security developments this work taps materials the Chinese military uses to educate its own officers to explain the bigger picture thinking that motivates Chinese cyber warfare Readers will be able to place the key role of Chinese cyber operations in the overall context of how the Chinese

military thinks future wars will be fought and grasp how Chinese computer network operations including various hacking incidents are part of a larger different approach to warfare The book's explanations of how the Chinese view information's growing role in warfare will benefit U.S. policymakers while students in cyber security and Chinese studies will better understand how cyber and information threats work and the seriousness of the threat posed by China specifically **(ISC)2**
