

The size of the screen is misleading—this is not a laptop.

So exactly where does a palmtop end and a laptop begin?

Introducing the HP 320LX palmtop PC. With a 640 x 240 VGA screen, it's the widest of any hand-held PC. Six inches. And it's the first palmtop with Microsoft® Windows® CE and a built-in CompactFlash card slot for removable memory storage. You can pull the 4MB HP 320LX palmtop PC from your pocket and instantly check and send e-mail, hop on the Internet,

print with the infrared connection or consult your calendar—all without lugging around a laptop. An energy-saving backlit screen allows hours of operation, and the standard docking cradle lets you easily synchronize your Windows CE applications with their Windows 95 and Windows® NT counterparts. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents.
