FutureShop Daniel Nissanoff, 2007-06-26 FutureShop is a book about change. In particular, it's about how our consumer culture is rapidly evolving to allow us to live better, richer lives for less. The catalyst to this change is eBay and similar sites that are quickly growing into mainstream shopping venues and creating unprecedented levels of liquidity for our everyday goods. The wave of the future will be temporary ownership: consumers will be able to buy what they really want because they'll be able to easily sell it when they are ready to upgrade to the next item on their wish list. Veteran Web entrepreneur Daniel Nissanoff's invaluable heads-up explores why this change is taking place and discusses what consumers and businesses can do in order to benefit from this new paradigm.

Personalized Law Omri Ben-Shahar, Ariel Porat, 2021-05-17 We live in a world of one size fits all law. People are different, but the laws that govern them are uniform. Personalized Law: rules that vary person by person will change that. Individual tailoring becomes increasingly possible as technology and data combine, and law and regulation could similarly be applied based on personalized subjective criteria. Better drivers would be free to drive faster; more vulnerable consumers would receive stronger warranties and protections; age restrictions for driving or for the consumption of alcohol would vary according to the recklessness risk that each person poses; and licensing requirements would be more demanding for the less skilled. This book is the first to explore how personalized law can be designed to deliver precision and justice, how data and algorithms might run the system, and what pitfalls the regime would have to prudently avoid. Omri Ben-Shahar and Ariel Porat not only present this concept in a clear, easily accessible way, but they offer specific examples of how personalized law may be implemented across a variety of real-life applications.

The Last Stand of Marriage Conrad Riker, They Weaponized Marriage. Now It's Time to Take Back Your Life. Ever feel like divorce courts treat you as a paycheck, not a parent? Worried a single accusation could destroy your career, reputation, or freedom? Tired of being told masculinity is toxic while society still demands you die in wars, work mines, or fund your ex's new boyfriend? Exposes the 80% statistic: feminists don't want you to know. Who really files for divorce and why? Reveals how Marxist academics and gender studies plotted to erase fathers from the family. Debunks the wage gap myth with cold, hard data on who actually risks their lives at work. Proves why no-fault divorce is a financial death sentence for men and how to armor yourself. Documents the 40% spike in male suicides after family courts strip dads of their kids. Uncovers the evolutionary trap of female hypergamy that turns marriage into a wealth transfer. Details how Sweden's gender-neutral disaster led to collapsing birth rates and fatherless teens. Teaches the 3 legal strategies to shield your assets, custody, and sanity from gynocentric judges. If you want to escape the feminist plantation, crush the Marxist playbook, and rebuild your legacy as a father leader and free man, buy this book today.
