## Sniper Guide:

A Sniper's Guide to Long Range Shooting Glen Roberts, 2024-06-14 A Sniper's Guide to Long Range Shooting is a collection of insider knowledge and skills from author Glen Roberts's career in police special operations sniping and his long range shooting training business. It all started at the age of eighteen with learning long range variables with a custom 243Win using DOS matrix computer technology and handwritten range cards. Over the years target engagements by first rate military snipers worldwide have doubled and the effective range of police special operations snipers has quadrupled. An easy to use guide for novices and experienced professionals alike. A Sniper's Guide to Long Range Shooting contains a methodical approach to everything you need to know about long range shooting including the latest advancements in shooting equipment, optics, laser technology and trajectory mapping software. Including a wealth of helpful images, carefully illustrated instructional diagrams, detailed tables and helpful FAQ topics include the fundamentals of shooting, shooting positions, shooting styles, wind effects, projectile designs, telescopic sights, projectile flight studies, cartridge and rifle selection, environmental effects, long range shooting tools and equipment calibration.

**Airsoft Sniper Guide Part 1** Christoph Neuwirth, 2015-01-10 This guide is about everything I learned during my sniper education at the Austrian Military and playing 7 years as an airsoft sniper. In this collection I put tips for gameplay advice, what I would buy and some stories from my past. It took me quite a long time to make and I am giving it away for very little money. This few bucks allows me to do what I love. Thank you for your support.
