## Science Experiments Chatgpt Review:

**Unleashing User Innovation** Mohammad Amin Kuhail, Mostafa Mohamad, Rawad Hammad, Mohammed Bahja, 2025-12-31 The convergence of End User Development EUD and Generative Artificial Intelligence GenAI ushers in a transformative era in which creators and consumers are no longer sharply divided and users are empowered to innovate as never before. *Unleashing User Innovation: Multidisciplinary Perspectives on End User Development and Generative AI* explores this dynamic intersection by bringing together diverse perspectives to highlight how these technologies are reshaping how we interact, learn, and innovate. With the perspective that new challenges require user-driven solutions, the book explores how EUD allows non-technical users to adapt and create tools for their needs while GenAI infuses the creative capability for creating human-like output from natural language to multimedia. Together, EUD and GenAI can allow the democratization of innovation and open unimagined possibilities. The book traces the evolution of EUD with an overview of the tools designed for chatbot development, examines the educational landscape, and shows how GenAI empowers educators to use AI as consumers and collaborators in shaping educational futures. It presents state-of-the-art applications of GenAI in personalizing education to improve comprehension and support special education. It explores the versatility of GenAI applications in tourism and immersive experiences, public health, and financial systems. It covers major ethical, policy, and global considerations driving responsible AI deployment. By exploring the intersection of diverse fields, the book reveals how generative AI empowers individuals engaged in end-user development to unlock their creative potential. It emphasizes the role of generative AI in enabling these developers to create innovative software solutions effectively. With a focus on cutting-edge advancements, the book showcases how the integration of generative AI fosters a collaborative environment that bridges the gap between technical and non-technical users, thereby democratizing development and fostering innovation.

**Practices and Strategies for Online Instructors: Insights From Higher Education Online Faculty** Doyle, Lori B., Tarbutton, Tanya M., 2024-11-15 Online higher education is on the rise, and experienced instructors can play a pivotal role in supporting this key sector by sharing effective evidence-based practices and strategies. By mentoring less experienced faculty, they can help ensure that online courses are engaging, accessible, and aligned with high academic standards. Their insights are invaluable for building a strong, adaptable online education environment that meets diverse student needs and fosters academic success. *Best Practices and Strategies for Online Instructors: Insights From Higher Education Online Faculty* serves as a collection of best practices and strategies as described by online faculty working in higher education. It discusses challenges specific to teaching in the online classroom and actionable steps for integrating best practices. Covering topics such as adult online learners, higher education institutions (HEIs), and virtual environments, this book is an excellent resource for higher education faculty, educators, administrators, policymakers, and more.

*Empowering Digital Education with ChatGPT* Mohamed Lahby, 2024-11-12 Recently, there has been a significant increase in the development and interest in

applying generative AI across various domains including education. The emergence of large language models LLMs such as the ChatGPT tool fueled by advancements in generative AI is profoundly reshaping education. The use of the ChatGPT tool offers personalized support improves accessibility and introduces innovative methods for students and educators to engage with information and learning materials. Furthermore ChatGPT facilitates a wide range of language learning services including language instruction speech recognition pronunciation feedback and immersive virtual simulations for hands on learning experiences. This book explores the transformative potential of the ChatGPT tool within education shedding light on the opportunities that arise through the integration of the ChatGPT tool into various aspects of the learning process. It serves as a platform for the community to share cutting edge research ideas concerning the use of the ChatGPT tool in digital education. Readers will discover how the ChatGPT tool can enhance student engagement foster personalized learning experiences facilitate intelligent tutoring systems support virtual classroom interactions and revolutionize assessment and feedback mechanisms.

[Chatgpt and Other Generative AI Tools](#) Jochen Kuhn, Stefan Küchemann, Knut Neumann, Martina Rau, 2025-02-17

In the past ten years applications of generative artificial intelligence GAI have found rapidly growing use in medicine science and daily life. Large language models LLMs opened up new avenues in particular for education. LLMs have been used to create interactive educational content for students stimulate their curiosity generate code explanations and develop assessment questions. Additionally LLMs have been applied for language practice anxiety alleviation and feedback provision. In higher education LLMs have shown potential for assisting in medical exam preparation and clinical decision making. In school education LLMs can help teachers with automated evaluation of student responses and respective adaptive feedback. More recently LLM based applications such as chatGPT have been used to generate teaching materials or assessment tasks across different subjects. The fields understanding of the effects of the use of LLM based applications in classroom teaching however is still in its infancy. GAI tools may help solving a range of tasks in education in particular with respect to teachers and students and teachers efforts to generate content. However it is critical that teachers and students do not overly rely on GAI generated solutions but instead critically assess each solution. Students should furthermore not use GAI tools to avoid investing relevant mental effort to create mental models or more broadly build up competencies.
