[Make / Believe](#) John Hartley,2025-01-23 This book illustrates that

mediated popular culture and science based knowledge systems entangled and compromised as both have become are still a robust crucible for system change for the future when they combine forces Planetary crises require responses from everyone This means that collective action is not simply a scientific or political problem It is a problem of culture and media But modern politics journalism and science were not designed for global climate action They ve divided humans into competitive and often hostile we and they groups Identity news and knowledge are all weaponized Culture makes groups groups make knowledge and knowledge makes enemies What can be done to prevent global conflict and the drift to war Make Believe turns to popular culture and social media to argue for an alternative storyline While the Great Powers are making new enemies emergent classes led by children are using planetary connectivity to make new worlds A digital planet generates new kinds of strategic stories for pan human action based on difference intersectionality and cooperation for a sustainable Earth system Make Believe shows how alternatives to the Great Game of global contestation are gathering strength in unlikely places among women children lifestyle and pop culture Popular digital media literacy is now a prerequisite for the remediation of the planet

[Anesthesia for Trauma](#) Corey S. Scher,2014-08-28 Trauma is the leading cause of death among people under the age of 40 and it ranks third for all age groups Still relatively few clinicians specialize in trauma and training

is often obtained through experience The number of trauma patients is expected to continue to grow as pre hospital care continues to advance As well hospitals increasingly see trauma treatment which requires no pre approval as a good source of revenue Given these developments the number of opportunities for specialists trained in trauma including anesthesiologists and critical care physicians will expand in the years ahead This book addresses the need for an up to date comprehensive and clinically focused volume for practitioners and trainees in trauma anesthesia and critical care It is organized by organ system The editor is an attending physician at a major urban hospital center recognized worldwide for its outstanding emergency medical services including trauma care and is recruiting leading trauma anesthesiologists to contribute Anesthesiologists pain medicine physicians critical care physicians and trainees are the target audience **Blood Safety** Hua Shan,Roger Y. Ball Lightning Cixin Liu, 2018-08-14 From the New York Times bestselling author of the Three Body Trilogy, Cixin Liu's *Ball Lightning* is the story of what happens when the beauty of scientific inquiry runs up against the drive to harness new discoveries with no consideration of their possible consequences. When Chen's parents are incinerated before his eyes by a blast of ball lightning, he devotes his life to cracking the secret of this mysterious natural phenomenon. His search takes him to stormy mountaintops, an experimental military weapons lab and an old Soviet science station. The more he learns, the more he comes to realize that ball lightning is just the tip of an entirely new frontier. While Chen's quest for answers gives purpose to his lonely life, it also pits him against soldiers and scientists with motives of their own: a beautiful army major with an obsession with dangerous weaponry and a physicist who has no place for ethical considerations in his single minded pursuit of knowledge. Wildly imaginative, *Barack Obama on The Three Body Problem* trilogy, *Tor* books by Cixin Liu, *The Three Body Problem Series 1: The Three Body Problem 2: The Dark Forest 3: Death's End*.
