Mental Health Care and Social Policy Phil Brown,2022-05-24 Originally published in 1985 at a time when the previous 2 decades had witnessed dramatic changes in the US mental health system These included the decline of the state mental hospital the birth of the community mental health center and the expansion of psychiatric services in general hospitals The inevitable results of the changes were the creation of a huge nursing home population of the chronically mentally ill and the multiplication of urban street people Mental health care is uncoordinated and underfunded The historical roots of these problems are examined in this book which is designed both as a professional reference volume and as a text for students in the sociology of mental health and illness The contributors are drawn from diverse fields including sociology psychiatry psychology epidemiology and social history

Castles of our Conscience William G. Staples,2013-05-02

Castles of our Conscience presents a new and distinctive analysis of the role of the modern state in the shaping of policies of social control Staples provides a theoretical framework for understanding the mechanisms of state policy making and capacity This framework supports an interpretation of the changing nature of institutions of social control in the United States from the beginning in the nineteenth century to the present day A distinctive feature of the author's approach is his critique of existing theories of the state as well as recent revisionist writing in social control Both he argues have tended to either reduce the state to an instrument of class power or treat it in too structuralist a fashion Developing a sophisticated account of the relationship between the state and civil society he provides a history of social control policies in the United States that balances analytical concerns with historical narrative This book will be of interest to students and professionals in sociology politics and criminology

B. Warren,1987 **From Discipline to Management** Jonathan Steven Simon,1990 The Mentally Ill Chemical Abuser Jacqueline Cohen,Stephen J. Levy,1992 Mentally ill chemical abusers have long been approached much as the elephant in the proverbial story of the blind men practitioners in the fields of mental health drug abuse and alcohol abuse are apt to examine only the symptoms with which they are most familiar and make diagnoses from those As the blind man holding the elephants tail was certain it was a piece of rope the mental health practitioner faced with a MICA client might see only the mental illness and overlook an equally important need to treat the client s alcohol or drug dependence The MICA population continues to grow for several reasons including an increase in the number of homeless people decreased funding for alcohol drug and mental health treatment mental health hospital deinstitutionalization and the rise in crack use MICA or dually diagnosed clients invariably fall through the cracks of the standard treatment options for mental illness alcohol abuse and drug abuse in large part because the systems often are uncoordinated For example since all use of mood altering substances is forbidden to members of Alcoholics Anonymous an alcohol dependent schizophrenic would have to forego needed medication in order to attend AA meetings At the same time a client who is being treated for alcohol dependence might not find the anticipated lessening of depression after abstinence but may nevertheless be denied access to psychiatric assessment and antidepressant medication In another case psychiatric emergency workers might easily fail to identify drug ingestion as the cause for psychotic episodes in a chronic patient It is not always the fault of misdiagnosis however MICA clients often manipulate mental health and alcohol and drug abuse professionals into fulfilling the need of the moment A MICA client might appear one day as an alcohol abuser the next as a drug addict and the third as a mental patient in order to receive food shelter and clothing The Mentally Ill Chemical Abuser is the first book to close the gaps among the three systems and thereby help practitioners understand the complexities that interfere with progressive treatment of the MICA client Cohen and Levy examine assessment issues and treatment planning problems that arise out of inaccurate assessment They also give an integrated view of the client based on their own practical experience and offer solutions to issues associated with the MICA population Any practitioner interested in the correlation between substance abuse and psychopathology will find this book s clear guidelines essential for better serving the mentally ill chemical abusing patient **Erving Goffman** Gary Alan Fine,Gregory W. H. Smith,2000 **Location and Stigma** Christopher J. Smith,John A. Giggs,1988 **Handbook on Mental Health Policy in the United States** David A.
