The Trouble With Post Blackness:

The Trouble with Post-Blackness Houston A. Baker Jr., K. Merinda Simmons, 2015-02-03 An America in which the color of one's skin no longer matters would be unprecedented. With the election of President Barack Obama in 2008 that future suddenly seemed possible. Obama's rise reflects a nation of fluid populations and fortunes, a society in which a biracial individual could be embraced as a leader by all. Yet complicating this vision are shifting demographics, rapid redefinitions of race, and the instant invention of brands, trends, and identities that determine how we think about ourselves and the place of others. This collection of original essays confronts the premise advanced by black intellectuals that the Obama administration marked the start of a post-racial era in the United States. While the transcendent and post-racial black elite declare victory over America's longstanding codes of racial exclusion and racist violence, their evidence relies largely on their own salaries and celebrity. These essays strike at the certainty of those who insist that life, liberty, and the pursuit of happiness are now independent of skin color and race in America. They argue, signify, and testify that post-blackness is a problematic mythology masquerading as fact, a dangerous new race science motivated by black transcendentalist individualism. Through rigorous analysis, these essays expose the idea of a post-racial nation as a pleasurable entitlement for a black elite, enabling them to reject the ethics and urgency of improving the well-being of the black majority.

The Trouble with Post-Blackness Houston A. Baker (Jr.), Merinda Simmons, 2015. Post-Blackness salutes Black individuals and their achievements while rejecting affiliation with any larger Black community. It disavows allegiance to Black intellectual and cultural traditions. Its stance depends on the premise that the current racial order has broken with the past. This collection of commissioned essays begins a long overdue discussion about changes in the racial order in the age of Obama. It interrogates and challenges the emergence of post-Black ideology from a variety of perspectives. It examines how we pay attention to the ways in which Blackness has been patterned and imagined in America. Making use of a wide scope of topics that rally around central questions introduced by the notion of post-Blackness, the volume gives general readers and students an introduction to what it means to be Black in the twenty-first century. Reframing Blackness and Black Solidarities through Anti-colonial and Decolonial Prisms George J. Sefa Dei, 2017-05-19 This book grounds particular struggles at the curious interface of skin, body, psyche, hegemonies, and politics. Specifically, it adds to current re-theorizations of Blackness, anti-Blackness, and Black solidarities through anti-colonial and decolonial prisms. The discussion challenges the reductionism of contemporary polity of Blackness in regards to capitalism, globalization, particularly when relegated to the colonial power and privileged experiences of settler. The book does so by arguing that this practice perpetuates procedures of violence and social injustice upon Black and African peoples. The book brings critical readings to Black racial identity, representation, and politics informed by pertinent questions: What are the tools, frameworks, Black peoples in Euro-American/Canadian contexts can deploy to forge community and solidarity and to resist anti-Black racism and other social oppressions? What critical

analytical tools can be developed to account for Black lived experiences agency and resistance What are the limits of the tools or frameworks for anti racist anti colonial work How do such critical tools or frameworks of Blackness and anti Blackness assist in anti racist and anti colonial practice The book provides new coordinates for collective and global mobilization by troubling the politics of decolonizing solidarity as pointing to new ways for forging critical friends and political workers The book concludes by offering some important lessons for teaching and learning about Blackness and anti Blackness confronting some contemporary issues of schooling and education in Euro American contexts and suggesting ways to foster dialogic and generative forums for such critical discussions
