Within each chapter, Kuther supports learners in applying concepts to their own lives through embedded exercises. The final four chapters of the text focus on bachelor's and graduate opportunities to help students look past graduation.

Instead of struggling to find the right words, copywriters should read this new book from cover to cover to discover how to write sales generating copy. The Complete Guide to Writing Web based Advertising Copy to Get the Sale will teach you how to make your copy readable and compelling, how to reach your target audience, how to structure the copy, how to visually format the copy, how to forget everything you ever learned about writing, how to pull in visitors, how to convince visitors to buy, how to outline and achieve your goals, how to create a customer profile, how to create a unique selling position, how to include searchable keywords in the copy, how to convert prospects to paying customers, and how to compose eye catching headlines. In addition, you will learn about the trends in Web based advertising, the categories of advertising, the important information that needs to be included in your copy, such as what you are selling, what sets your product apart from the competition, where you are located, what makes your product affordable, and why you yourself would buy the product, writing in the inverted pyramid style, the do's and don'ts of Web based advertising, and key phrases to incorporate in your copy. We will also provide you with some common mistakes to avoid and tips for writing, revising, and proofreading.
