Time Magazine Protest:

Visual Protest, Viral Images, and Virtual Participation Nicole A. Schneider, 2025-06-30 This interdisciplinary study sees press photographs of the BLM Movement in the US as agents for Black liberation. Close reading both the images and theoretical considerations on Blackness photography and the often intangible articulations of racism in today's society, the book focuses on the work the photographs do for the movement as they politically garner attention and create discursive places historically unsettle seemingly fixed narratives about the African American past and virtually establish room for digital activist debate. Based on Azoulay's event of photography and Rancière's politics of aesthetics, it builds the theory of an attentive reading of photography and addresses the larger frameworks of photography as event in anti-racist considerations. In their political aesthetic and performative dimensions, these photographs negotiate the current matter of Black lives in the United States and articulate ontological dimensions of Blackness as political struggle and affirmative position. They become mobile and material discursive places that lift the protested debates into wider fields of consideration and visibility, complicating notions of society, politics, and interaction.

Protest Politics in the Marketplace Caroline Heldman, 2017-10-15 Protest Politics in the Marketplace examines how social media has revolutionized the use and effectiveness of consumer activism. In her groundbreaking book, Caroline Heldman emphasizes that consumer activism is a democratizing force that improves political participation, self-governance, and the accountability of corporations and the government. She also investigates the use of these tactics by conservatives. Heldman analyzes the democratic implications of boycotting, socially responsible investing, social media campaigns, and direct consumer actions, highlighting the ways in which such consumer activism serves as a countervailing force against corporate power in politics. In *Protest Politics in the Marketplace*, she blends democratic theory with data, historical analysis, and coverage of consumer campaigns for civil rights, environmental conservation, animal rights, gender justice, LGBT rights, and other causes. Using an interdisciplinary approach applicable to political theorists and sociologists, Americanists, and scholars of business, the environment, and social movements, Heldman considers activism in the marketplace from the Boston Tea Party to the present. In doing so, she provides readers with a clearer understanding of the new permanent environment of consumer activism in which they operate.

Suicide Protest in South Asia Simanti Lahiri, 2014-04-03 The radical act of suicide protest is undertaken by social movement participants in order to demand a particular previously articulated political outcome. This book examines the history and impact of suicide protest, which has been increasingly used as a protest tactic since World War II, adding to a growing area of research on the ability of certain actions to impact policy in favour of movement goals. The book offers a combination of historical and contemporary cases analysis from South Asia, where different iterations of this tactic have been used extensively throughout the latter half of the twentieth century, including the use of fasting to the death, self-immolation, and deliberate drowning. Focussing on the success or failure of a particular action relevant to the movement's broader mobilization strategy, the

author examines the internal impact this has on the movement and the mechanisms by which suicide as a form of protest evolves Providing a unique contribution to the field of comparative politics political violence and social movement studies this book will be of interest to scholars working on political science sociology and South Asian studies **Protest!** Liz
