**Beauty and the Gods** Hugo Shakeshaft, 2025-03-25 How ideas and experiences of beauty informed human relationships with the divine in ancient Greece Beginning with the earliest Greek literature the epics of Homer and Hesiod beauty was seen as having a special connection with the divine The gods of ancient Greece were defined by their exceptional beauty even today to look like a Greek god is proverbial for human beauty In *Beauty and the Gods* Hugo Shakeshaft explores the relationship between the beautiful and divine in ancient Greece principally in the Archaic period ca 750 480 BCE Analysing evidence that ranges from poetry art and philosophical texts to architecture and the natural landscape Shakeshaft shows how ideas and experiences of beauty shaped Greek relations with the divine With a powerful call for the place of beauty and aesthetics in the writing of history Shakeshaft uncovers the cultural dialogue between beauty and the gods in a variety of contexts in the Archaic Greek world in forms of divine worship in poetry music and dance in attitudes to the natural environment and in architecture and art This early chapter of Greek history he argues holds an unrecognised key to understanding some long running threads in the histories of religion art and aesthetics from Plato's aesthetic theories to beauty's status in contemporary discourse Beauty's deep past and divine connection in ancient Greece can help us see beauty now in sharper focus

*The Promise of Beauty and Why It Matters* Shakti Maira, 2016-12-10 A concern for beauty would certainly make us better shapers of the world Roger Scruton The idea of beauty is highly conflicted terrain Does it only have to do with how things look Is it merely prettiness Is it entirely subjective Does it serve a function Historically beauty has been held in high esteem beauty is truth truth beauty the poet Keats wrote Why then do the high priests of the arts and the arguably progressive socio political thinkers of the day shun it Shakti Maira explains how the problem lies with the confused understanding of beauty and with beauty becoming superficially located quite literally on the skin What would happen he

asks if beauty were to become central to every aspect of our lives environment education economics and governance Maira engages eighteen eminent thinkers in a series of conversations around the difficult enthralling notion of beauty Scientists explore whether there is an evolutionary purpose to it Philosophers examine its relationship to truth and goodness Artists speak of beauty and its rejection Brain mind experts consider whether the experience of it strengthens certain neural pathways connected with the qualities of balance harmony rhythm and proportion Activists probe how beauty works in the context of social systems What emerges is a deeper understanding of beauty and how it is a key to our world a radical new way of evaluating problems and finding solutions from the personal to the political the individual to the universal
