Tibetan Environmentalists in China Liu Jianqiang,2015-12-24 This book weaves together the life stories of five extraordinary contemporary Tibetans involved in environmental protection as well as a host of secondary characters Tashi Dorje a well known and celebrated environmentalist Karma Samdrup a philanthropist businessman and environmentalist Rinchen Samdrup Karma s brother another extraordinary environmentalist Gendun a painter historian and researcher from Amdo and Musuo a Tibetan from the Dechin area of northwest Yunnan who founded the Khawakarpo Culture Society In the politically fraught and ever worsening situation for Tibetans within China today it is often said that the only possible path for a better solution will be through a change in the way that the majority Chinese society thinks about and understands Tibetans their aspirations histories and desires This book provides the first such account by drawing readers in with beautiful narrative prose and fascinating stories and then using their attention to demystify Tibetans cultivating in the reader a sense of empathy as well as facts upon which to rebuild an intercultural understanding It is the first work that seriously aims to let the Chinese public understand Tibetans as both products of an admirable culture and as complex individuals negotiating religious ideals economic change and sociopolitical constraints In short it opens up a whole new way of understanding Tibet

Tibetan Subjectivities on the Global Stage Shelly Bhoil,Enrique Galvan-Alvarez,2018-11-08 Tibetan Subjectivities on the Global Stage Negotiating Dispossession explores the many ways Tibetans are reimagining their cultural identity since the communist takeover of Tibet in the 1950s Focusing on developments taking place in Tibet and the diaspora this collection of essays addresses a wide range of issues at the heart of Tibetan modernity From the political dynamics of the exiled community in India to the production of contemporary Tibetan literature in the PRC the collection delves into various aspects of current significance for the Tibetan community worldwide such as the construction of Bon identity in exile the strategic use of the discourse of development or the issue of cultural and linguistic purity in an increasingly hybrid and globalized world Moving away from the preservationist paradigm that regards Tibetan culture as an endangered and precious object the essays in this book portray Tibetan identities in motion as lived subjectivities that travel change and creatively reimagine themselves on various global stages Even if recent Tibetan history is marked by imposed transitions and a sense of dispossession this collection highlights the ways Tibetans have not only managed traumatic historical events but also become agents of change and reinventors of their own traditions    Tibetan Environmentalists in China Liu Jianqiang,2015 This book weaves together the life stories of five extraordinary contemporary Tibetans involved in environmental protection as well as a host of secondary characters Tashi Dorje a well known and celebrated environmentalist Karma Samdrup a philanthropist businessman and environmentalist Rinchen Samdrup Karma s brother another extraordinary environmentalist Gendun a painter historian and researcher from Amdo and Musuo a Tibetan from the Dechin area of northwest Yunnan who founded the Khawakarpo Culture Society In the politically fraught and ever worsening situation for Tibetans within China

today it is often said that the only possible path for a better solution will be through a change in the way that the majority Chinese society thinks about and understands Tibetans their aspirations histories and desires This book provides the first such account by drawing readers in with beautiful narrative prose and fascinating stories and then using their attention to demystify Tibetans cultivating in the reader a sense of empathy as well as facts upon which to rebuild an intercultural understanding It is the first work that seriously aims to let the Chinese public understand Tibetans as both products of an admirable culture and as complex individuals negotiating religious ideals economic change and sociopolitical constraints In short it opens up a whole new way of understanding Tibet *The Life and Times of George Tsarong of Tibet, 1920-1970* Paljor Tsarong,2022-01-04 Centuries have passed since the demise of many precapitalist agricultural states Despite the British invasion of 1903 and the Chinese invasion in 1950 the Tibetan state continued to fully function until 1959 For this reason this biography of George Tsarong not only provides new and in depth perspectives on the life of an official of the Tibetan state but it will also contribute to the comparative study of precapitalist states This book weaves together history and biography to narrate the life of an aristocratic state official his education and social life his registration and entrance into a civil service career It also describes the various personal and state political intrigues he was involved in and the many grand ceremonies that dominated the life of a state official George Tsarong s story is also the story of the fall of this traditional state and the complex social and psychological aspects of occupation resistance and exile

**Religion and Ecological Sustainability in China** James Miller,Dan Smyer Yu,Peter van der Veer,2014-04-29 This book sheds light on the social imagination of nature and environment in contemporary China It demonstrates how the urgent debate on how to create an ecologically sustainable future for the world s most populous country is shaped by its complex engagement with religious traditions competing visions of modernity and globalization and by engagement with minority nationalities who live in areas of outstanding natural beauty on China s physical and social margins The book develops a comprehensive understanding of contemporary China that goes beyond the tradition modernity dichotomy and illuminates the diversity of narratives and worldviews that inform contemporary Chinese understandings of and engagements with nature and environment *Annual Report* United States.
