Reading Comprehension Goodreads Choice Guide:

Crash Course in Readers' Advisory Cynthia Orr, 2014-12-05 One of the key services librarians provide is helping readers find books they'll enjoy. This crash course will furnish you with the basic practical information you need to excel at readers advisory RA for adults and teens. The question can you recommend a good book can be one of the most daunting you face notwithstanding the fact that recommender tools are ubiquitous. Often uncertainty arises because although librarians are called on to perform such services daily, readers advisory is a skill set in which most have no formal training. This guide will remedy that. It is built around understanding books, reading and readers and will quickly show you how to identify reading preferences and advise patrons effectively. You'll learn about multiple RA approaches such as genre appeal, features and reading interests and about essential tools that can help with RA. Plus you'll discover tips to help you keep up with this ever-changing field. There is no other professional book that covers the full spectrum of skills needed to perform the RA service that is in such great demand in libraries of all kinds. Helping readers find what they want is a sure way to serve patrons and build your library's brand. You will come away from this easy-to-understand crash course with the solid background you need to do both.

Language-Based Approaches to Support Reading Comprehension Francine Falk-Ross, 2014-07-09 *Language Based Approaches to Support Reading Comprehension* takes a closer look at students who are frequently marginalized by language differences in the classroom, whether by teachers' oversight or simply the lack of information. In order to remedy this situation, Falk-Ross and the contributing authors offer their different perspectives on supporting English language learners (ELLs) through specific strategies for assessment and instruction. Each chapter presents a specific issue and challenge, supportive research, and up-to-date information, classroom implications, and strategies and case study applications relating to the particular perspective of literacy development for ELLs of middle level ages.

For the Love of Reading Nancy L. Baumann, 2013-10-17 This insightful book reviews the current research on literacy programming, examines the latest standards for strengthening reading skills, and provides educators, families, and caregivers methods for building successful reading habits in and out of the classroom. Research indicates that children need more than classroom instruction to become proficient readers. Unfortunately, few parents realize how simple everyday practices can build a lifelong love of reading. Educators diligent with employing mandatory literacy standards may overlook families and support systems as tools for improving student performance. This book provides a comprehensive overview of the various methods of reading instruction, analyzing the pedagogy behind Sustained Silent Reading (SSR), the importance of reading aloud to children, and the necessity of working the home-school connection. *For the Love of Reading: Guide to K-8 Reading Promotions* provides strategies and tips for setting up successful reading environments for children, including having a well-stocked library collection, engaging students through book clubs, reading lists, and prepared book talks, and involving student and adult volunteers. The author asserts that the entire school community—teachers, librarians, parents, caregivers, and administrators—

must work together to promote literacy
