An Introduction to Web Mining Ulrich Matter, 2025-09-08 This book is devoted to the art and science of web mining showing how the world's largest information source can be turned into structured research ready data. Drawing on many years of teaching graduate courses on Web Mining and on numerous large scale research projects in web mining contexts the author provides clear explanations of key web technologies combined with hands on R tutorials that work in the real world and keep working as the web evolves. Through the book readers will learn how to scrape static and dynamic JavaScript heavy websites use web APIs for structured data extraction from web sources build fault tolerant crawlers and cloud based scraping pipelines navigate CAPTCHAs rate limits and authentication hurdles integrate AI driven tools to speed up every stage of the workflow apply ethical legal and scientific guidelines to their web mining activities. Part I explains why web data matters and leads the reader through a first hello scrape in R while introducing HTML HTTP and CSS. Part II explores how the modern web works and shows step by step how to move from scraping static pages to collecting data from APIs and JavaScript driven sites. Part III focuses on scaling up building reliable crawlers dealing with log ins and CAPTCHAs using cloud resources and adding AI helpers. Part IV looks at ethical legal and research standards offering checklists and case studies enabling the reader to make responsible choices. Together these parts give a clear path from small experiments to large scale projects. This valuable guide is written for a wide readership from graduate students taking their first steps in data science to seasoned researchers and analysts in economics social science business and public policy. It will be a lasting reference for anyone with an interest in extracting insight from the web whether working in academia industry or the public sector.

Disruption and Digital Journalism John V. Pavlik, 2021-10-06. This book offers a timely insight into how the news media have adapted to the digital transformation of public communication infrastructure. Providing a conceptual roadmap to understanding the disruptive, innovative impact of digital networked journalism in the 21st century, the author critically examines how and to what extent news media around the world have engaged in digital adaptation. Making use of data from news media content production and distribution both off and online as well as user and financial data from the US and internationally, the book traces how the news media embraced and reacted to key developments such as the invention of the World Wide Web in 1989 and the launch of Google in 1998, Facebook in 2004 and the Apple iPhone in 2009. The author also highlights innovative organizations that have sought to reimagine news media that are optimized for digital online and mobile media of the 21st century, demonstrating how these groups have been able to stay better engaged with the public. Disruption and Digital Journalism is recommended reading for all academics and scholars with an interest in media, digital journalism studies and technological innovation.
